

The update procedure through OTA – A5 Smiley v2 21.01.2015

The software update advantages are:

- software stability improvement;
- translations improvement;
- APN updates;
- fixing some minor bugs.

ATTENTION! *The phone must be fully charged when initializing the procedure.*

ATTENTION! *Please do not stop under any circumstance the update operation.*

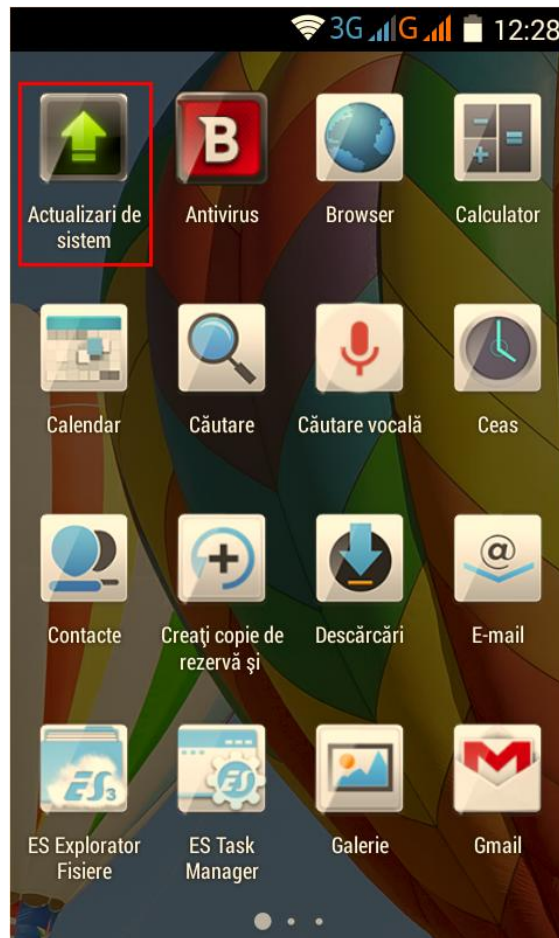

The software update is an operation which is realised on own responsibility by following the steps below.

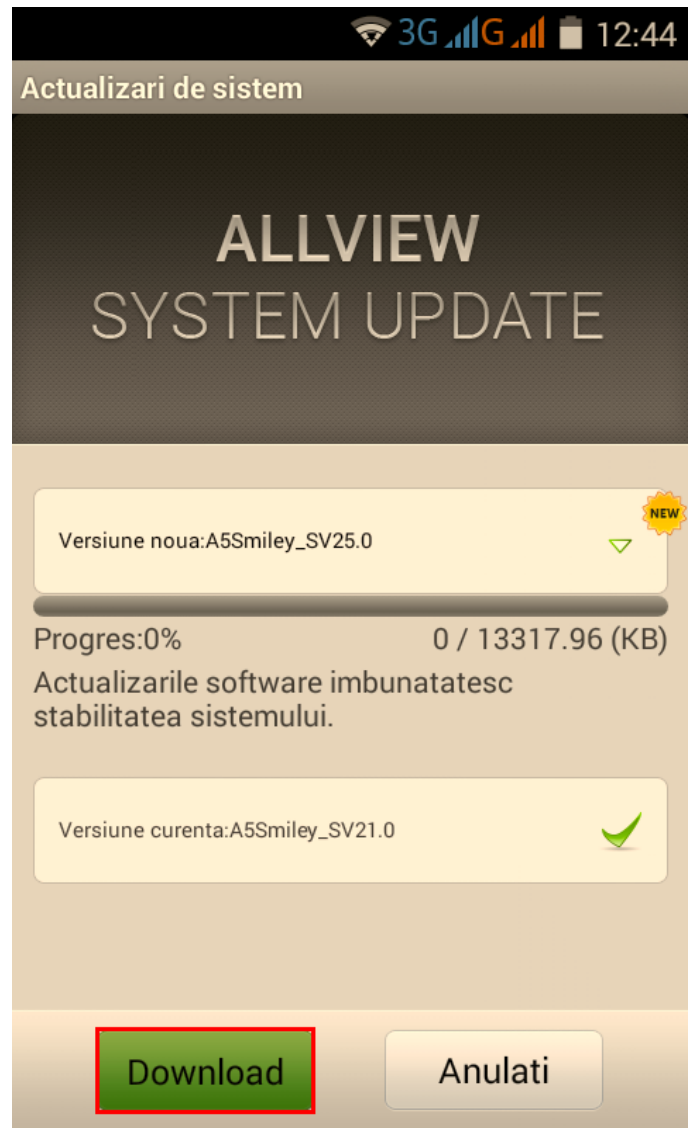

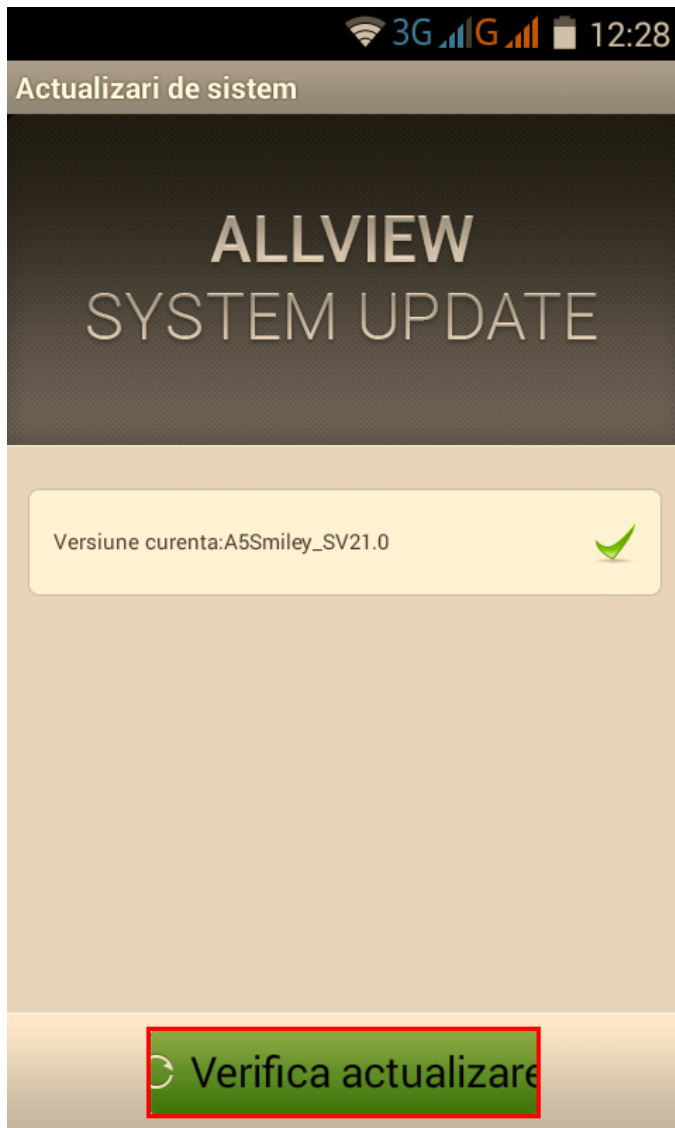

ATTENTION! *The update procedure is applied if the latest Android 4.4 KitKat software update is done for this phone model, you can check the software version like this: go to Settings -> About Phone->Version Number: A5Smiley_SV21.0*

To update the software version of the **Allview A5 Smiley** smartphone it is necessary to follow the next steps:

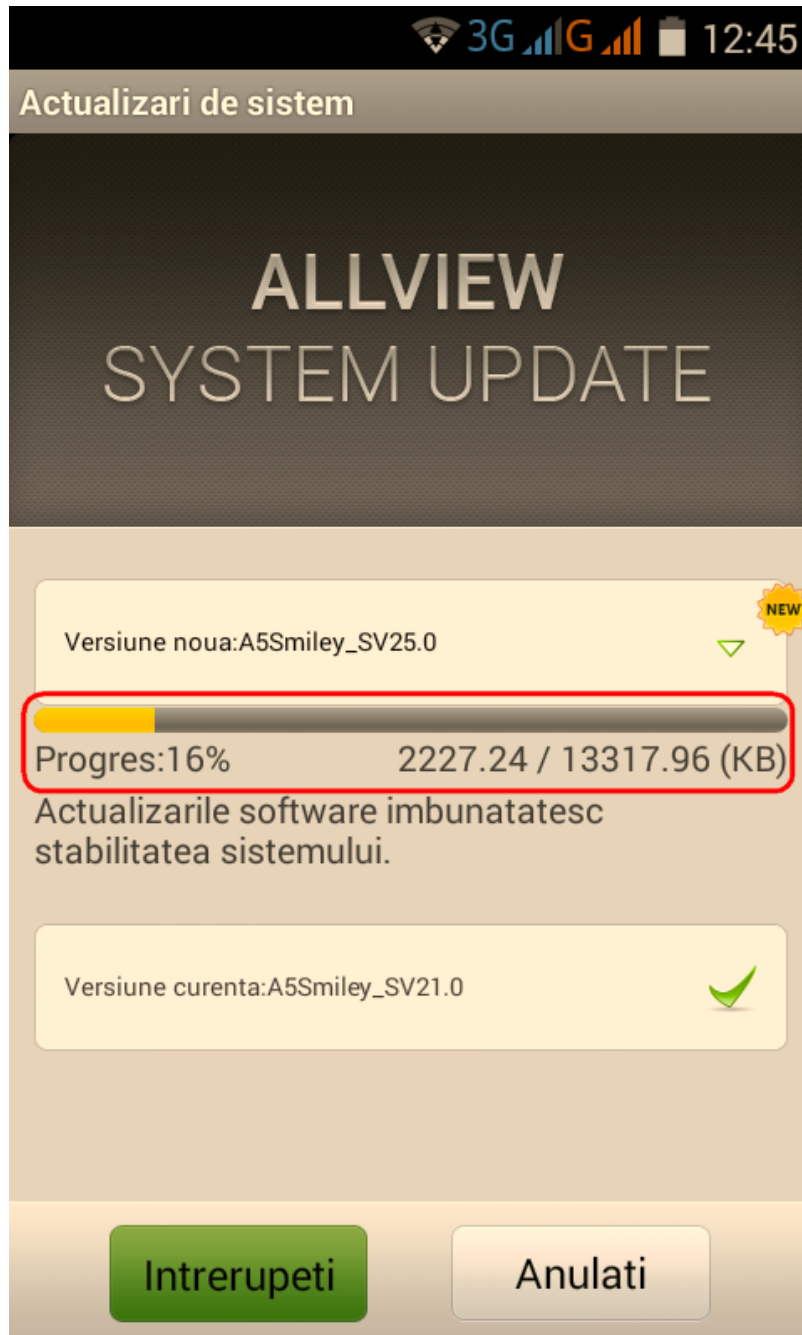

1. Turn on the phone and connect it to a wireless network.
2. Open the **"System Update"** app from the apps menu:

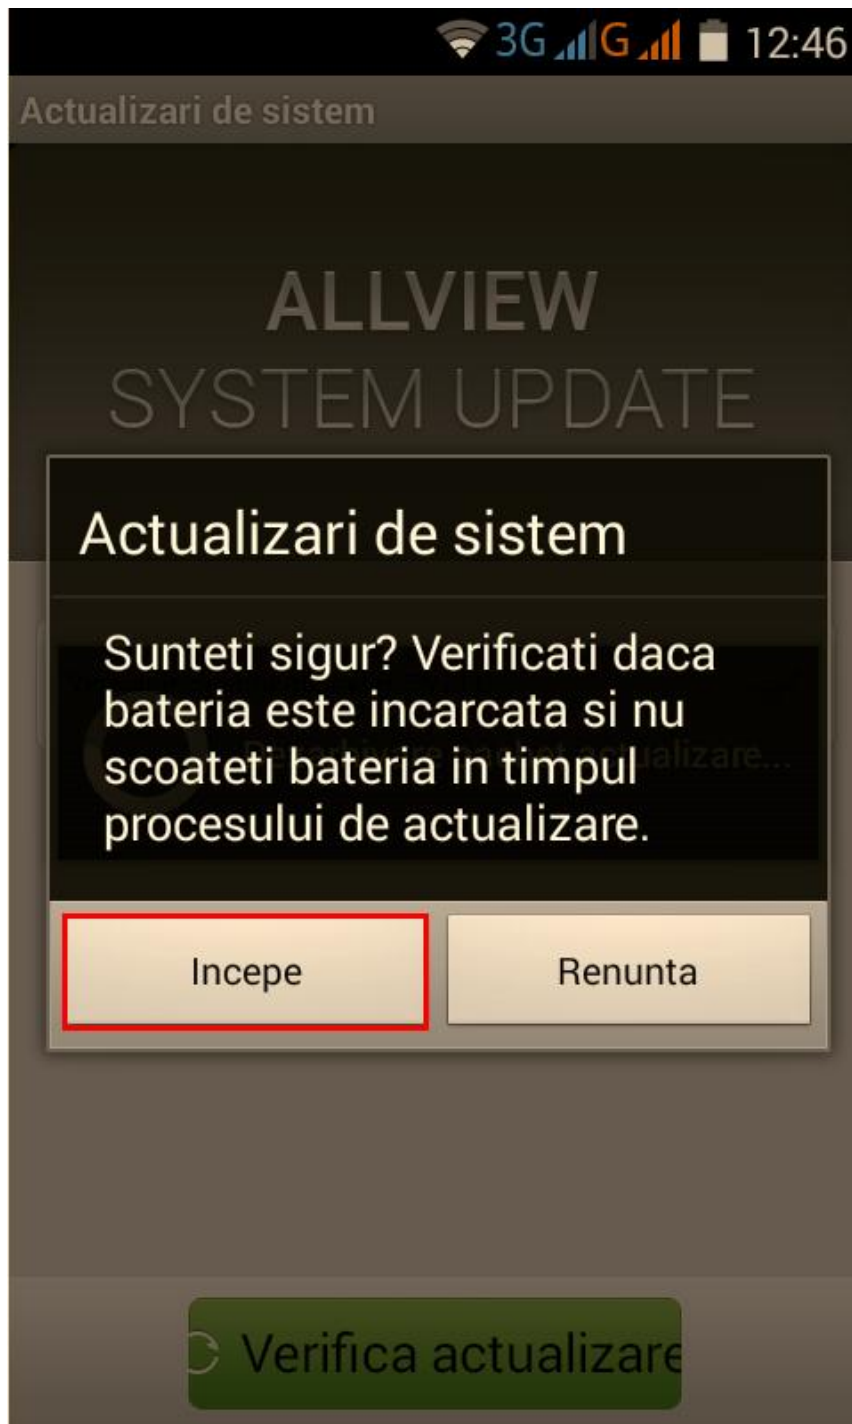

3. Tick the option: **Check update** (the “System Updates” app has detected a new software version **SV25.0**) -> **Download**:

4. Please wait until the new software is downloaded on the phone:

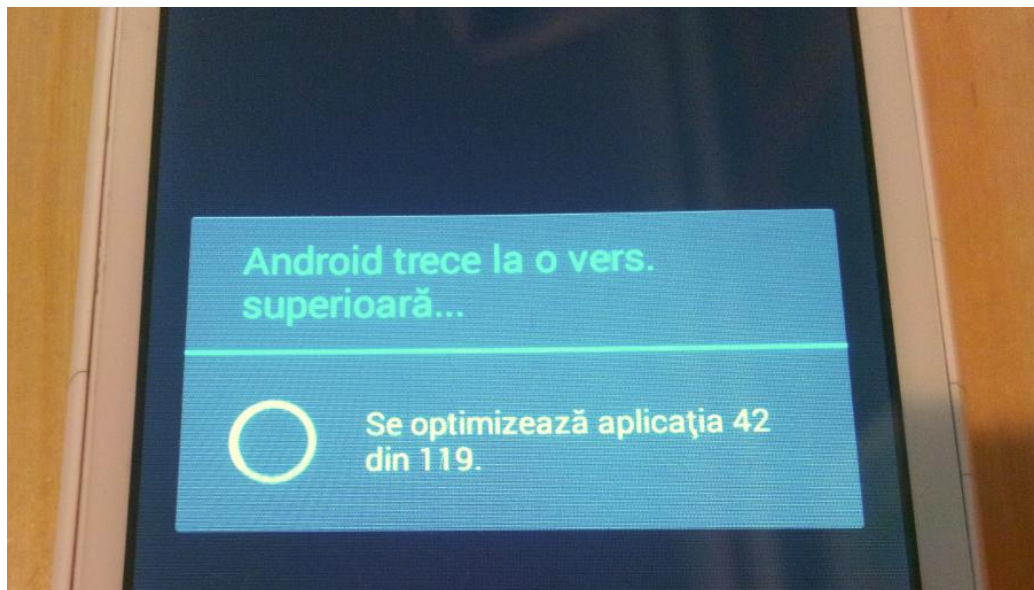

5. After the full software download, a message will be displayed on the phone's screen that will inform you about this system update:

6. Select **Begin** The phone will reboot and the update procedure will start automatically .

7. After finishing the update process, the phone will reboot itself.

8. On the phone's screen this message will be displayed: **“Android is upgrading”**.

The update file downloaded in the internal storage/microSD card will be deleted automatically after the termination of the update process.

We recommend factory Reset after the update, to avoid some errors.

ATTENTION! *The phone's factory reset will completely delete all personal information and the apps installed in the phone.*
