The Update Procedure through OTA - V1 Viper 16GB /30.01.2015

ATTENTION! *The phone must be fully charged when initializing the procedure.*

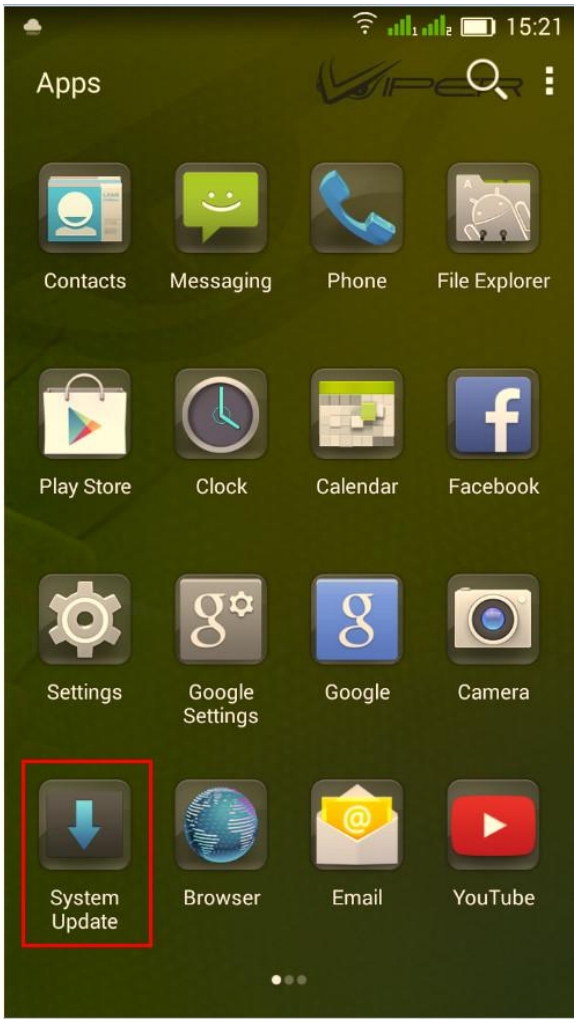
ATTENTION! *Please do not stop under any circumstance the update operation.*

The software update is an operation which is realised on own responsibility by following the steps below.

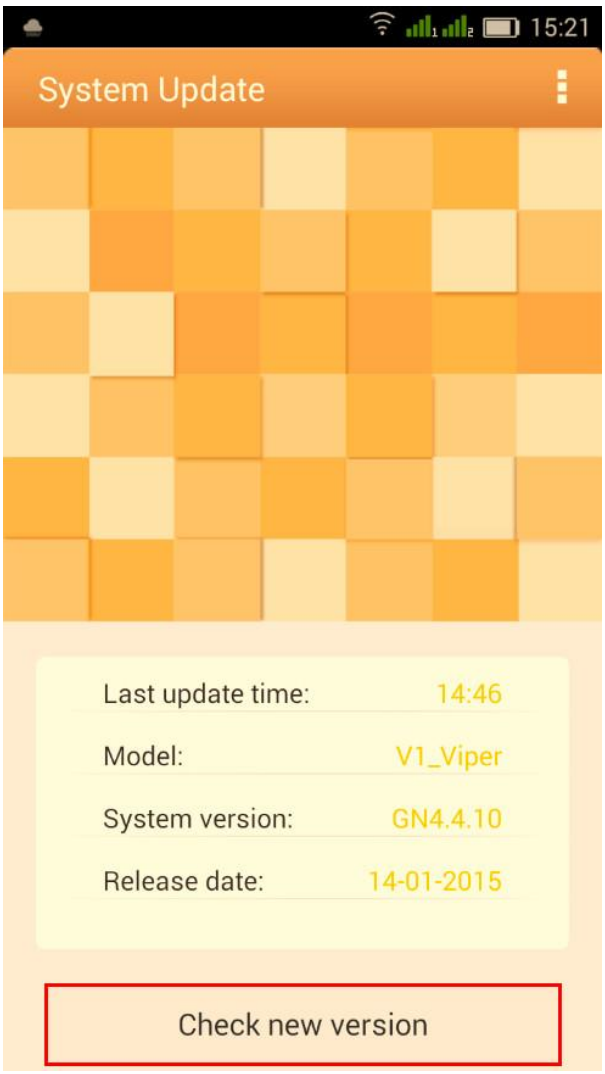
ATTENTION! The update procedure is applied to both Android 4.4 KitKat software versions of this phone. You can check the sw version as it follows: go to Settings -> About Phone -> Version number: ***V1_Viper_0102_V8089 sau V1_Viper_0102_V8126.***

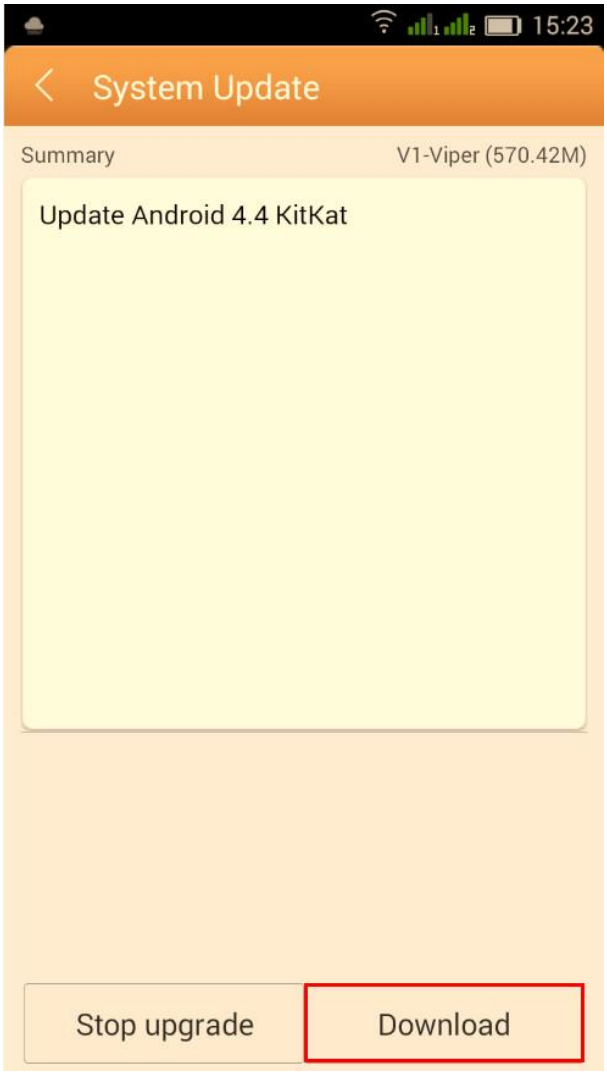
To update the software version of the **Allview V1 Viper 16GB** smartphone it is necessary to follow the next steps:

1. Turn on the phone and connect it to a wireless network.
2. Open the **"System update"** app from the app menu:



3. Tick the option: ***Check new version -> Start:***





4. Please wait until the new software is downloaded in the phone:

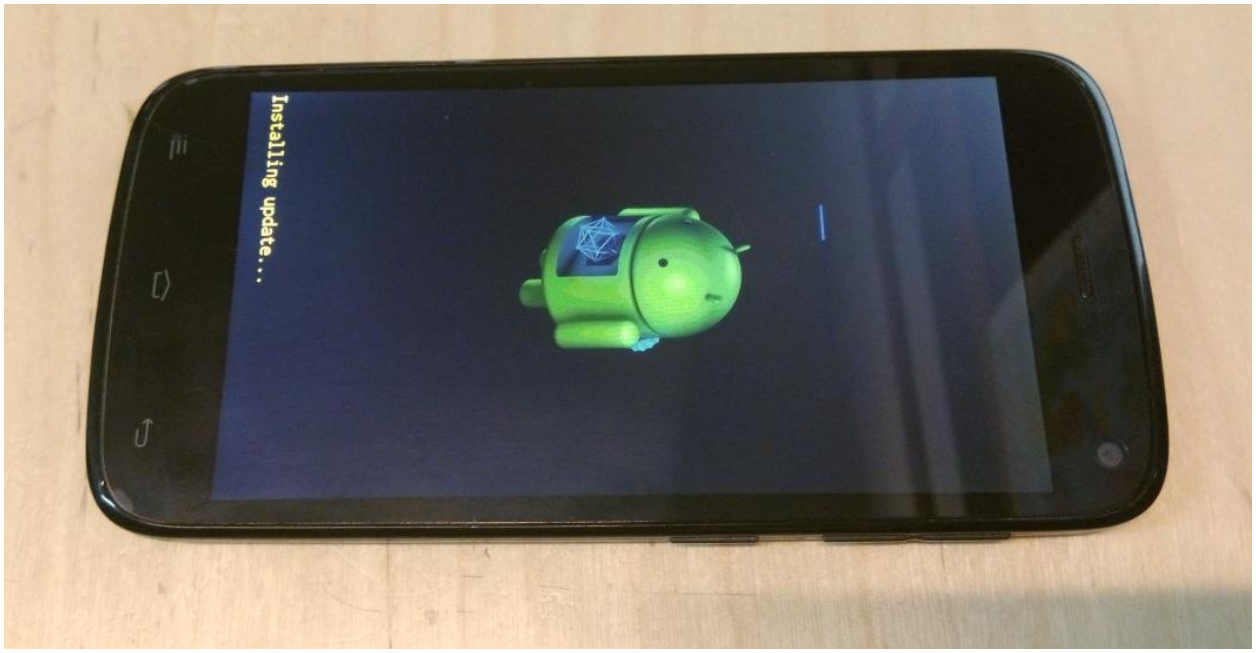
Cancel
Pause

5. After the complete download of the software to the phone, please select ***Update***:

6. A message will be displayed on the phone's screen that will inform you about this update:

7. Select ***Update***. The phone will reboot and the update procedure will start automatically .



8. After finishing the update process, the phone will reboot itself.

9. On the phone's screen this message will be displayed: ***“Android is upgrading”.***

The update file downloaded in the internal storage/microSD card will be deleted automatically after the termination of the update process.

We recommend Factory Reset after the update, to avoid some errors.

ATTENTION! *The phone's factory reset will completely delete all personal information and the apps installed in the phone.*
