

## **Procedura de update software v2 - Allview Speed Quad / 02.03.2015**

*The software update advantages are:*

- ✓ the Android 4.4.2 KitKat operating system update to 5.0 Lollipop;
- ✓ a newer interface for the fast settings menu;
- ✓ a newer interface for the Settings app;
- ✓ adding some new apps.

**ATTENTION!** *This software update is a BETA version and it is offered to users for testing. According to the received feedback the software version will be optimized.*

**ATTENTION!** *The tablet's battery needs to be fully charged before starting the procedure!*

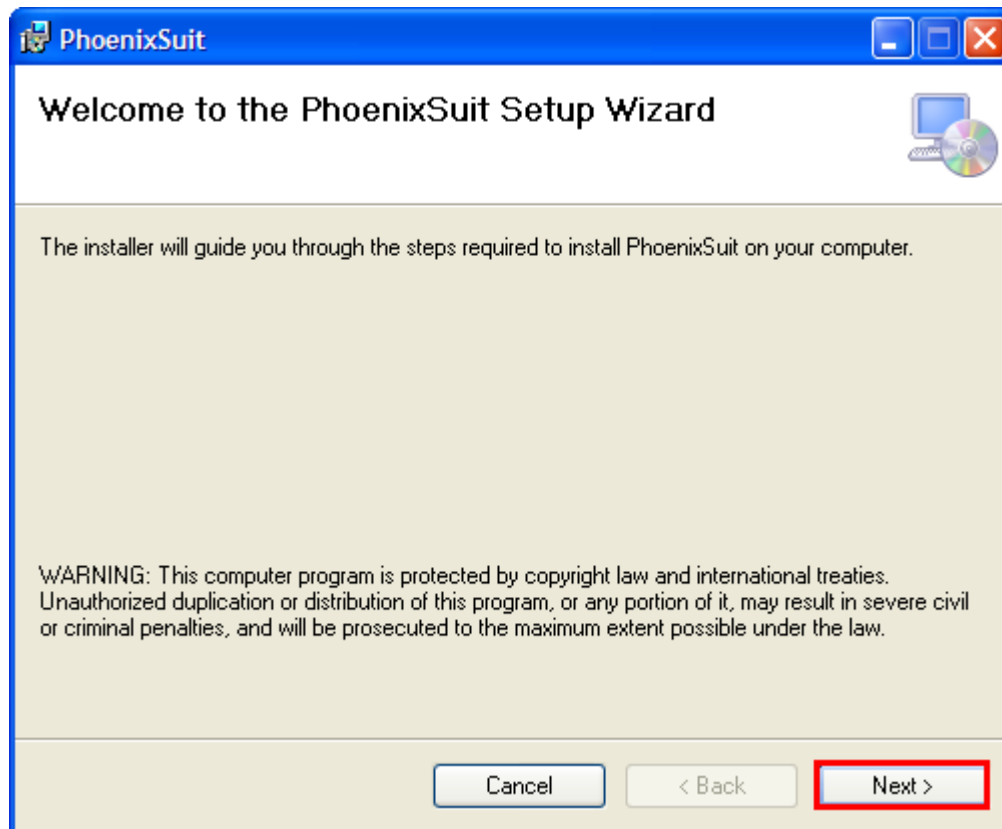

**ATTENTION!** *Please do not stop under any circumstance the update operation.*

*The software's upgrade is an operation which is realised on your own responsibility by following exactly the steps below.*

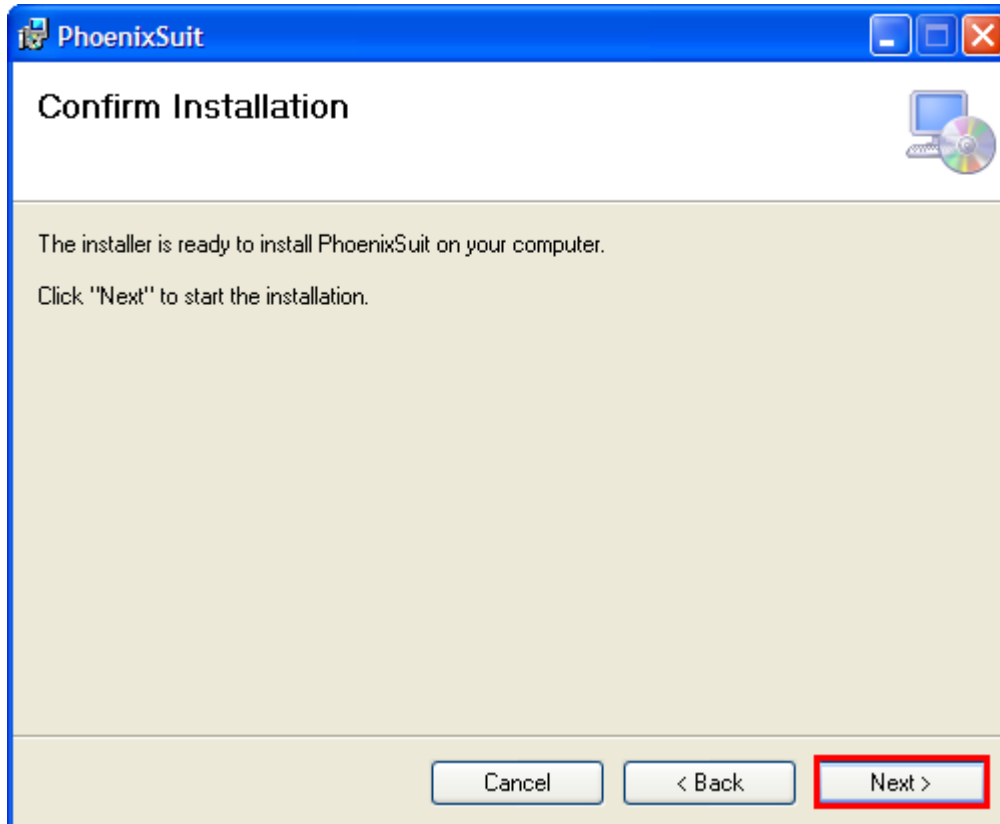

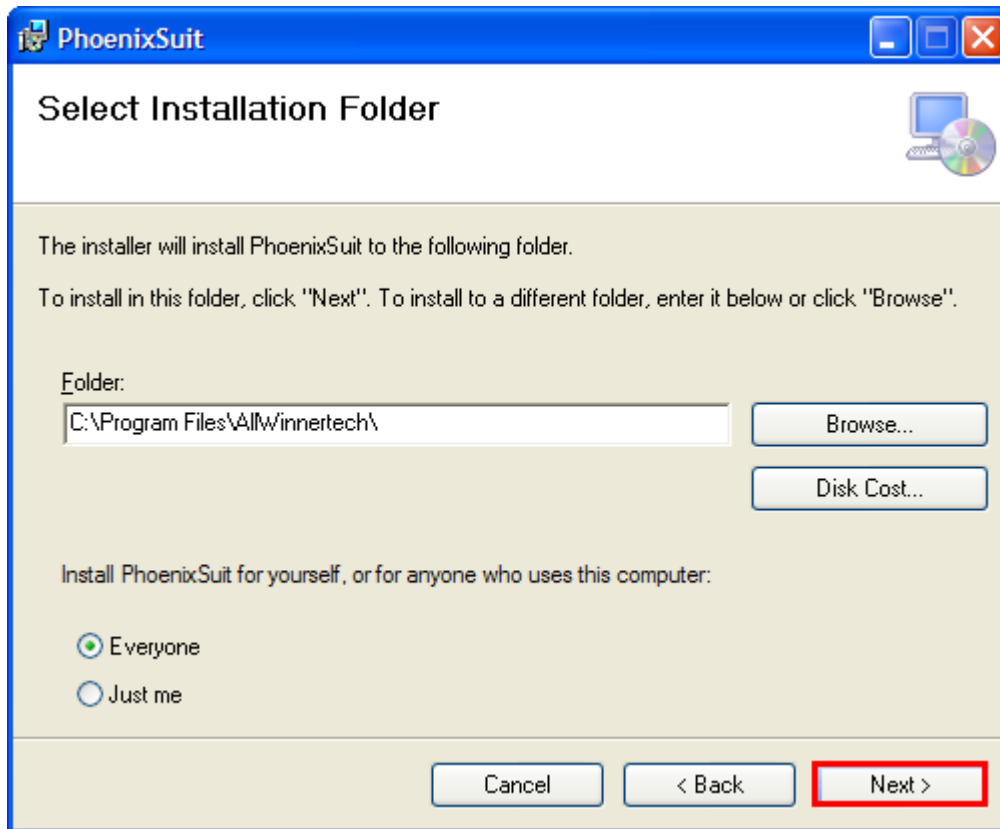

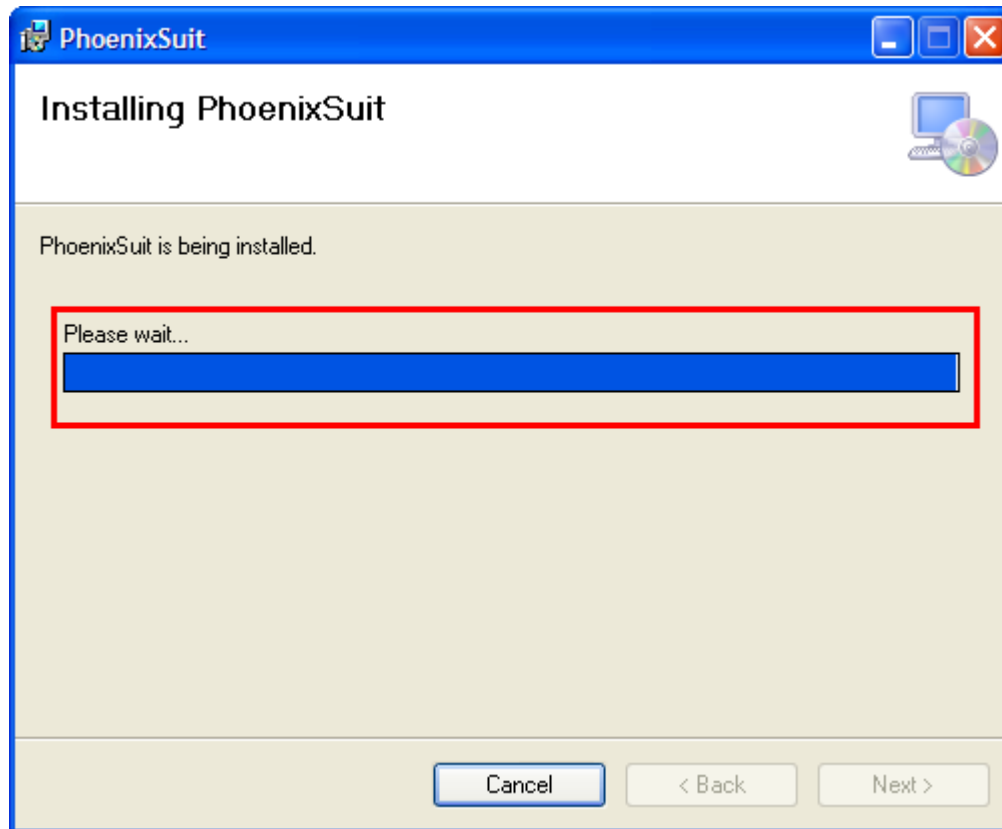

To update the software version of the **Allview Speed Quad** tablet it is necessary to follow the next steps:

1. Download the **Update\_Speed\_Quad\_02.03.2015.zip** archive into a PC or laptop.
2. By unzipping, a folder will result with a **PhoenixSuit\_EN.exe** installer file and an IMG file.
3. From the resulted folder install the **PhoenixSuit\_EN.exe** tool:

4. Continue the installation by pressing: **NEXT->NEXT:**

5. Press **NEXT** and install the driver. In case you are running Windows 7/8, the driver will install automatically.

### Device Driver Installation Wizard

## Welcome to the Device Driver Installation Wizard!

This wizard helps you install the software drivers that some computers devices need in order to work.

9. Connect the USB cable to the computer, then, on the shut down tablet you will press the “**Volume –**” key and at the same time the micro USB port is inserted in the tablet. Keep pressed the “**Volume -**” key and then press successively the **Power** key until a new window appears and that asks for the installation of a driver.

10. Please press Next, and the driver will install automatically.

11. After the driver's installation, the message from the image below will be displayed. Confirm it by pressing **Yes -> Yes**.

The screenshot shows the PhoenixSuit software interface. At the top, there is a navigation bar with the PhoenixSuit logo and the text "A Convinced Firmware Tool". Below the logo are four icons: Home, Firmware, Apk, and News. The main area of the interface is light blue. A dialog box is open in the center, titled "PhoenixSuit". The dialog box contains the following text: "Tips: Does mandatory format?", "Forced format will lead to files are missing, please back up important files!", "Select Yes, enter the format upgrade mode.", and "Select No, enter the normal upgrade mode. (Recommended)". There are two buttons at the bottom of the dialog box: "Yes" and "No". The "Yes" button is highlighted with a red border. Below the dialog box, there is a caution message: "Caution: Please Check the Device Power Before Upgrade. Do not Unplug Device during the Upgrade Procedure." At the bottom of the interface, there is a status bar with the text "Begin to Upgrade Firmware to Device" on the left and "PhoenixSuit V1.0.6" on the right.

12. The update procedure will start automatically and it will be pointed by a status bar.
