

The update procedure v1– V1 Viper S4G/20.01.2015

The software update advantages are:

- software stability improvement;
- translations improvement;
- fixing some minor bugs.

ATTENTION! *The phone must be fully charged when initializing the procedure.*

ATTENTION! *Please do not stop under any circumstance the update operation.*

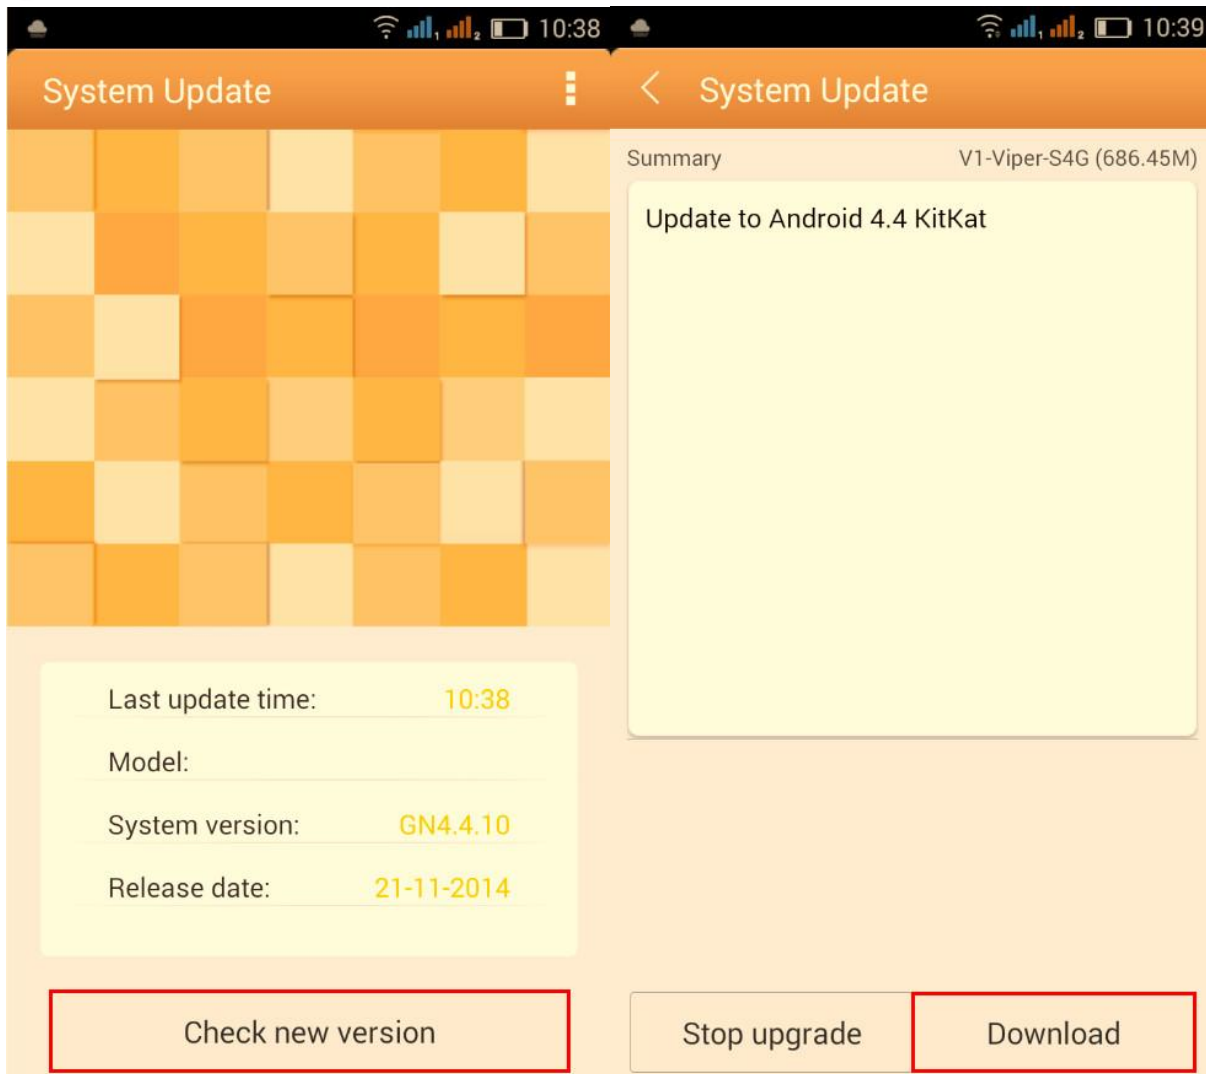

The software update is an operation which is realised on own responsibility by following the steps below.

To update the software version of the **Allview V1 Viper S4G** smartphone it is necessary to follow the next steps:

1. Turn on the phone and connect it to a wireless network.
2. Open the **"System update"** app from the app menu:

3. Tick the option: **Check New Version -> Start:**

4. Please wait until the new software is downloaded on the phone:

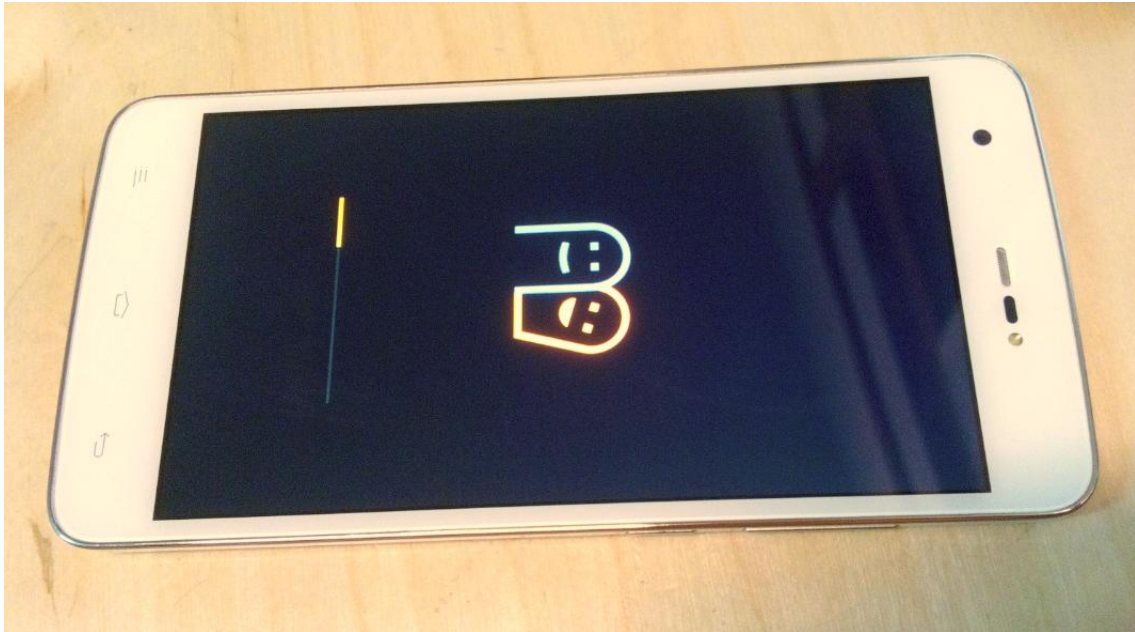

5. After the complete download of the software, please select **Update**:

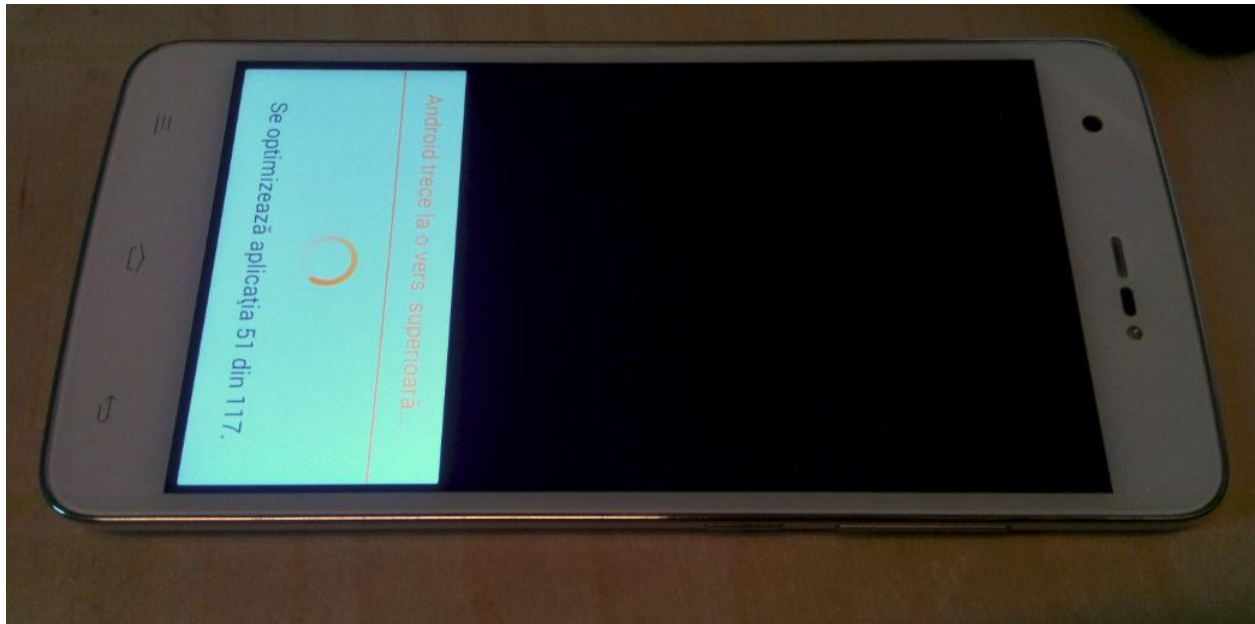

6. A message will be displayed on the phone's screen that will inform you about this update:

7. Select **Update**. The phone will reboot and the update procedure will start automatically .

8. After finishing the update process, the phone will reboot itself.

9. On the phone's screen this message will be displayed: "Android is upgrading".

The update file downloaded in the internal storage/microSD card will be deleted automatically after the termination of the update process.

We recommend factory Reset after the update, to avoid some errors.

ATTENTION! *The phone's factory reset will completely delete all personal information and the apps installed in the phone.*
