

The update procedure through OTA – Allview X2 Soul / Android 4.4.2 / 13.05.2016

The software update advantages are:

- ✓ fixing problems for downloading apps from Play Market.

ATTENTION! The phone must be fully charged when initializing the procedure.

ATTENTION! Please do not stop under any circumstance the update operation.

The software update is an operation which is realised on own responsibility by following the steps below.

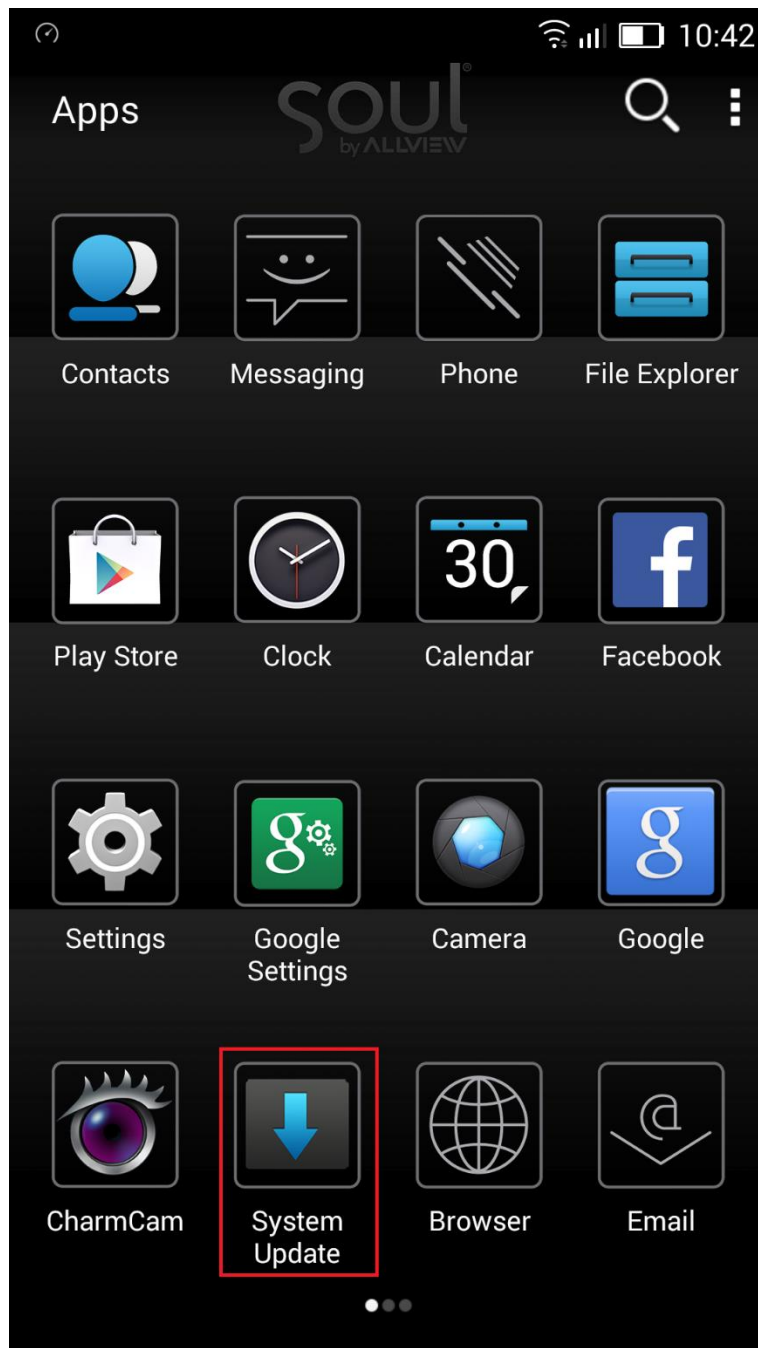

ATTENTION! The update procedure is applied if you installed the last Android 4.4 KitKat sw update for this phone model. You can check the software version like this: go to Settings -> About phone -> Version number (SW Version): X2_Soul_0401_V8957

To update the software version of the *Allview X2 Soul* smartphone it is necessary to follow the next steps:

1. Turn on the phone and connect it to a wireless network.
2. Open the **"System updates"** app from the apps menu:

3. For search software version use button **“Check new version”**

4. The “**System Update**” app has detected a new software version (**X2_Soul_0401_T9041**).
Tick the option: **Download**:

5. Please wait for the full software download in the phone's internal storage.

6. After full software download, select **“Upgrade”**:

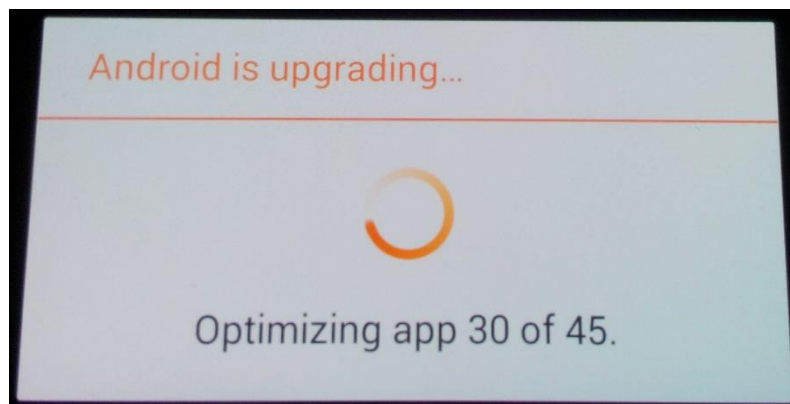

7. The phone will reboot and the update procedure will start automatically .

8. After finishing the update process, the phone will reboot itself.

9. On the phone's screen this message will be displayed: **"Android is upgrading"**.

The update file downloaded in the internal storage will be deleted automatically after the termination of the update process.
