

## **The Update Procedure through OTA – Allview X3 Soul Mini / Android™ 5.1 / 12.07.2016**

*The software update advantages are:*

- ✓ *software stability improvement;*
- ✓ *fixing minor bugs.*

**WARNING!** *The phone must be fully charged when initializing the procedure.*

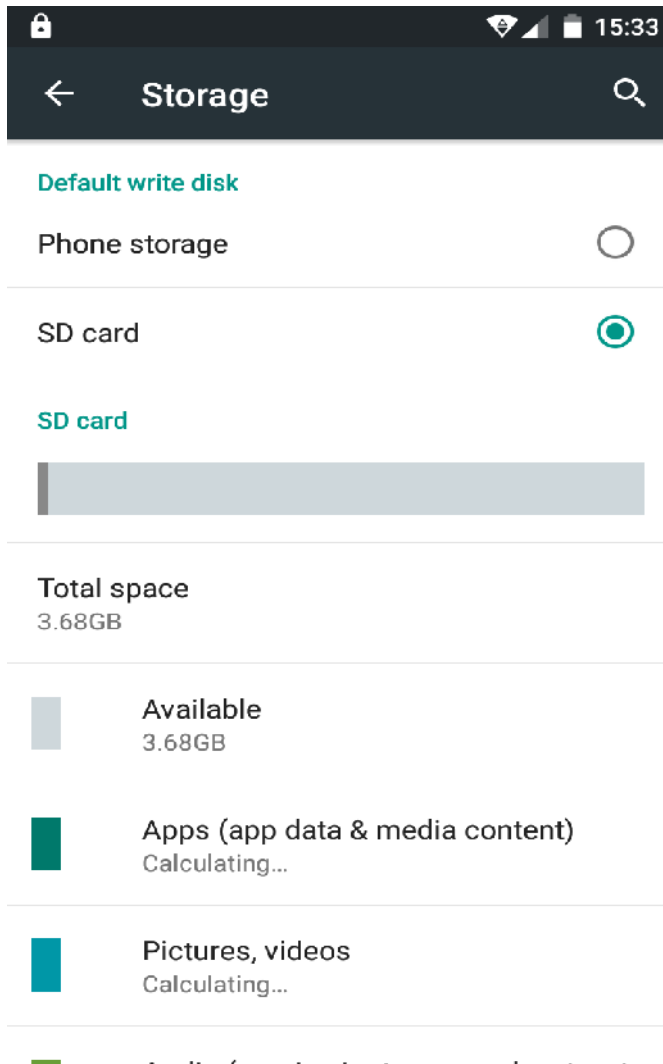

**WARNING!** *Please do not stop the update operation under any circumstances.*

*The software update is an operation done on own responsibility by following the steps below.*

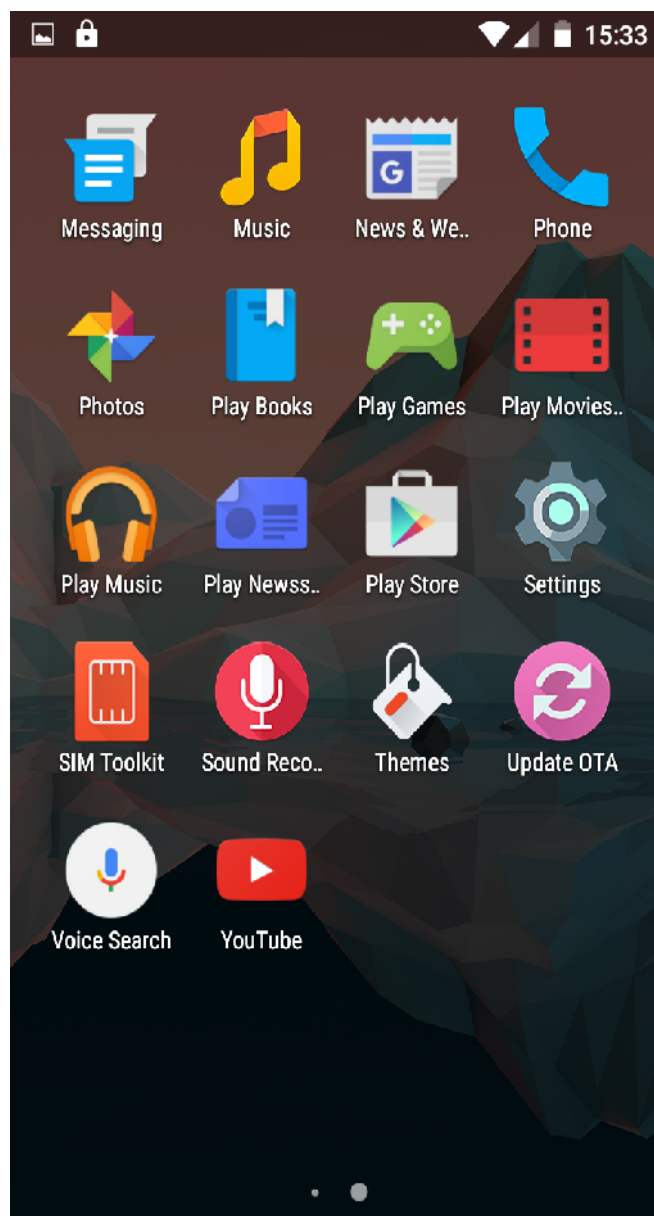

To update the software version of the *Allview X3 Soul Mini* smartphone please follow the next steps:

1. Turn on the phone and connect it to a wireless network.
2. Make sure a microSD card is inserted in the phone and is selected as default write disk.

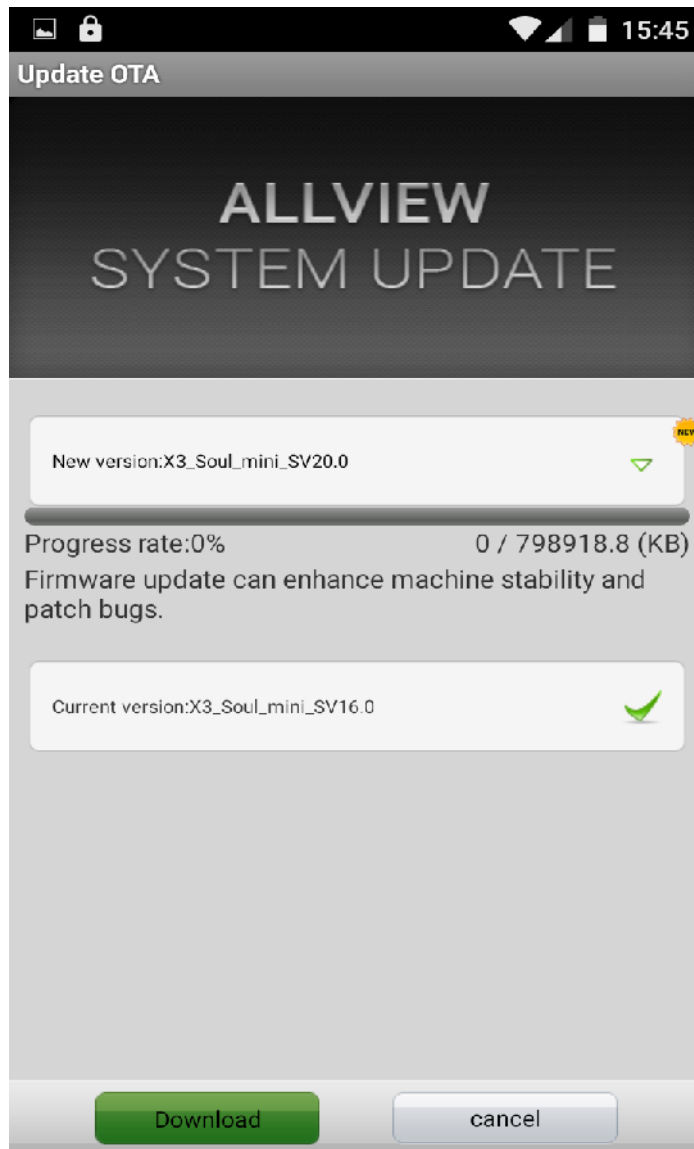

3. Open the "System update" app from the app menu:

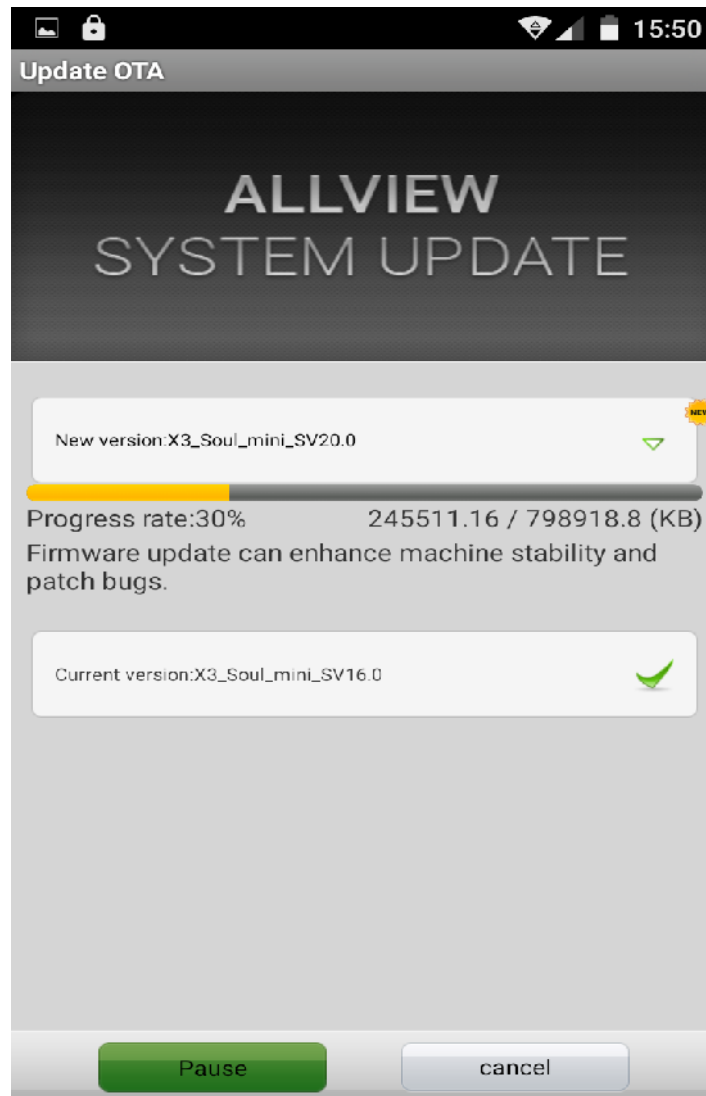

4. Look for the soft version (**X3\_Soul\_mini\_SV20.0**) in the “**System update**”. Click on **Download**:

5. Please wait until the new software is downloaded on the microSD card of the phone:

6. A message regarding the software update will be shown on the phone's screen:

7. Select **Start**. The phone will reboot and the update procedure will start automatically.

8. After the update process is finished, the phone will reboot itself.

9. **"Android is upgrading"** will be shown on the phone's screen.

*The update file downloaded on the microSD card will be automatically deleted once the update process is finished.*

We recommend **Factory Reset** after the software update in order to prevent any errors.

*All personal info and apps will be deleted from your device after Factory Reset.*
