

The Update Procedure through OTA – Allview V1 Viper S4G / Android 4.4 KitKat/ 12.07.2016

The software update advantages are:

- ✓ *software stability improvement;*
- ✓ *fixing minor bugs.*

WARNING! *The phone must be fully charged when initializing the procedure.*

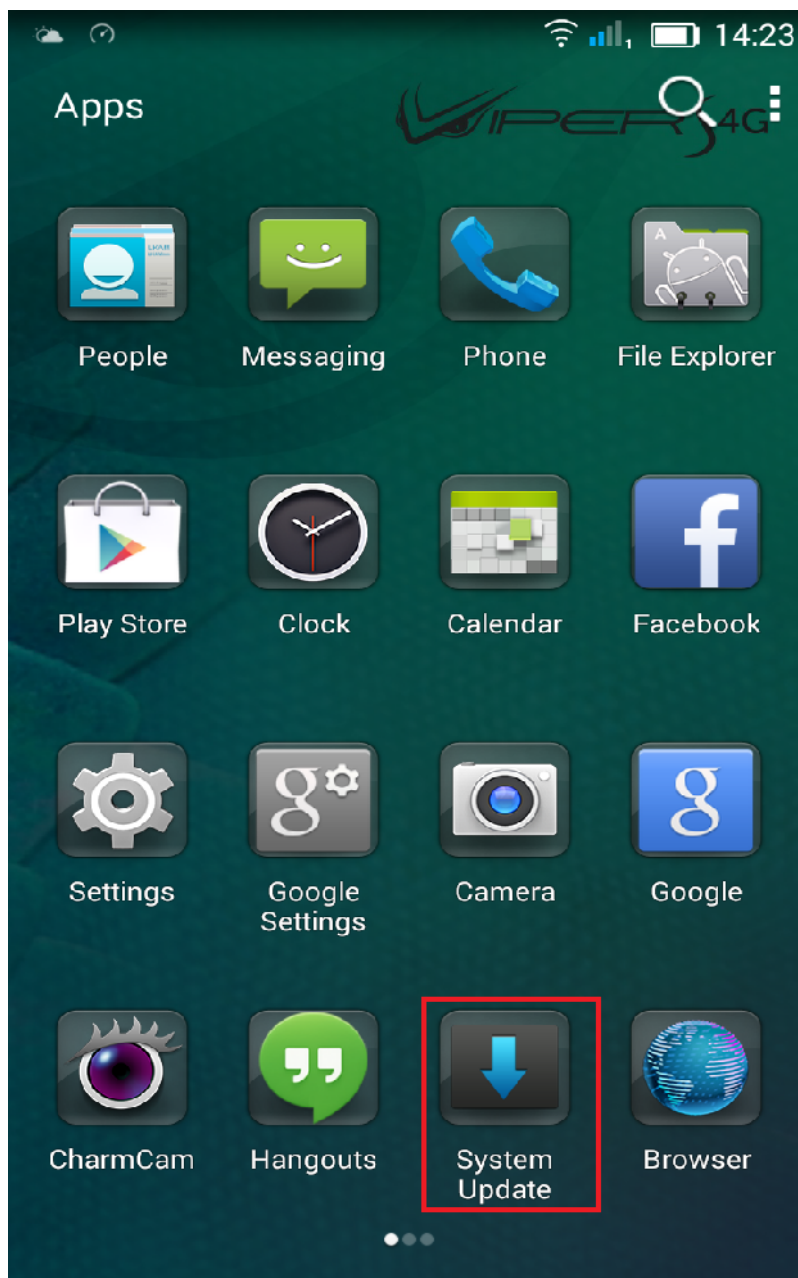

WARNING! *Please do not stop the update operation under any circumstances.*

The software update is an operation done on own responsibility by following the steps below.

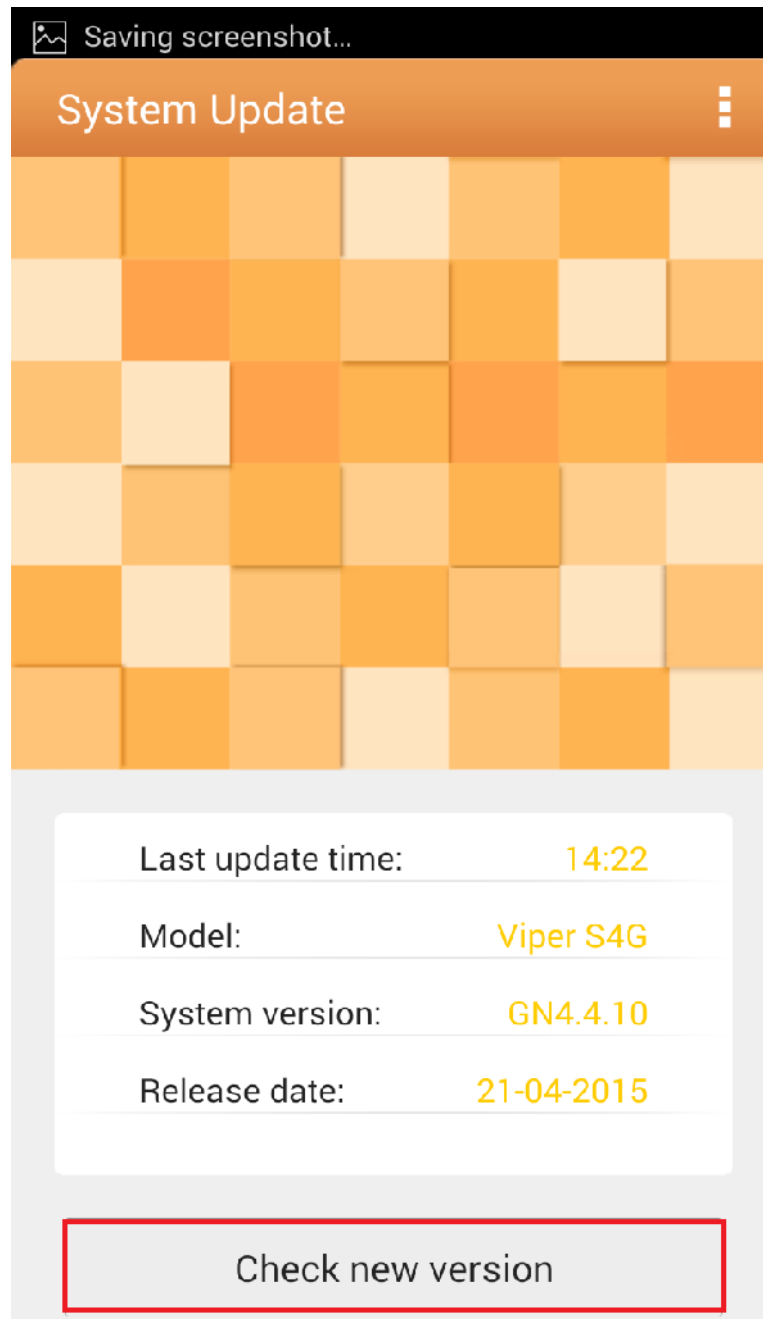

To update the software version of the *Allview V1 Viper S4G* smartphone please follow the next steps:

1. Turn on the phone and connect it to a wireless network.
2. Open the "**System update**" app from the app menu:

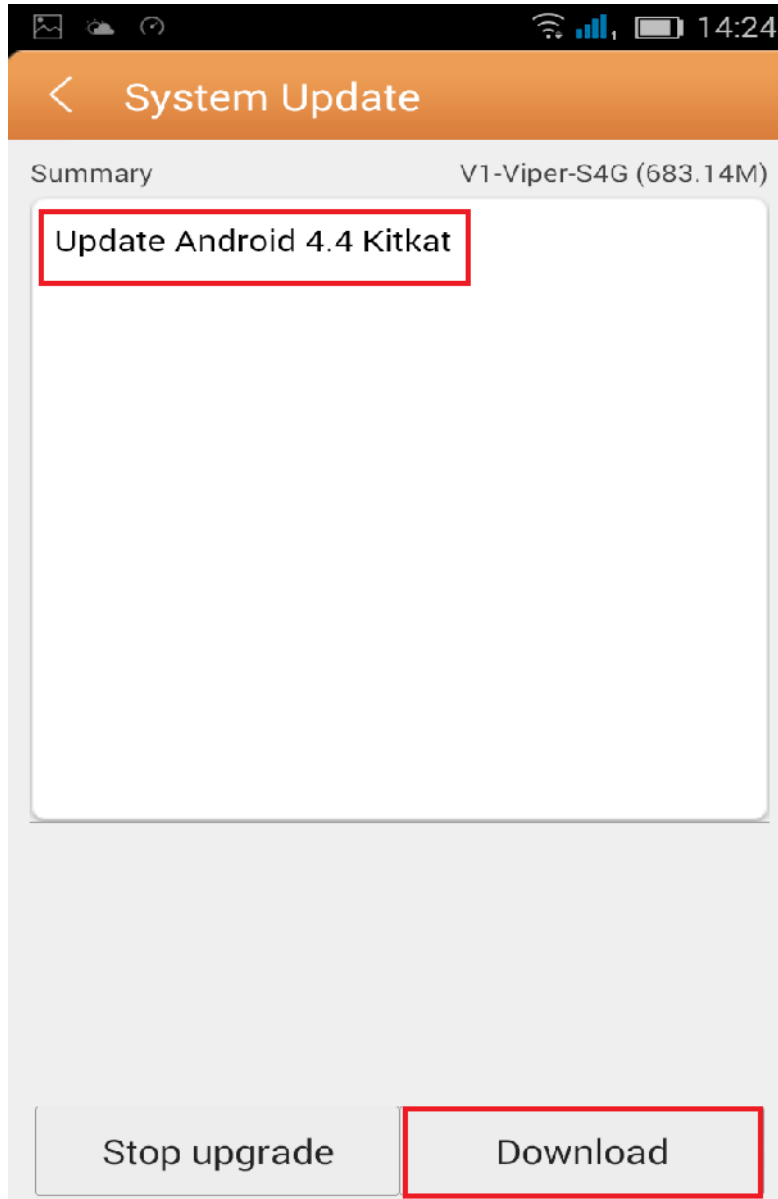

3. Search for software update by accessing the **“Check new version”** option:

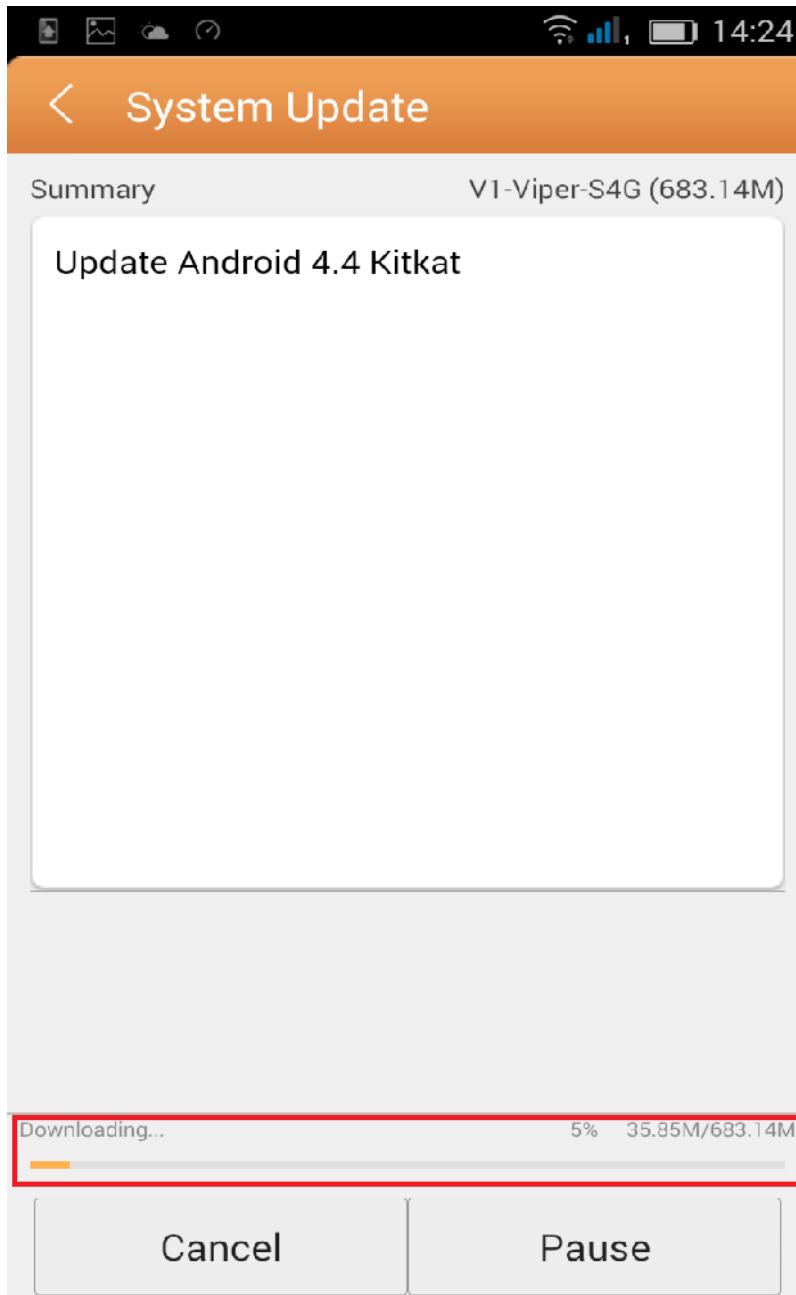

4. The “**System update**” app has detected a new software version (**Update Android 4.4 KitKat**).
Click **Download**:

5. Please wait until the new software is downloaded to the internal storage or micro SD card of the phone:

6. After the complete download of the software, please select **“Update”**:

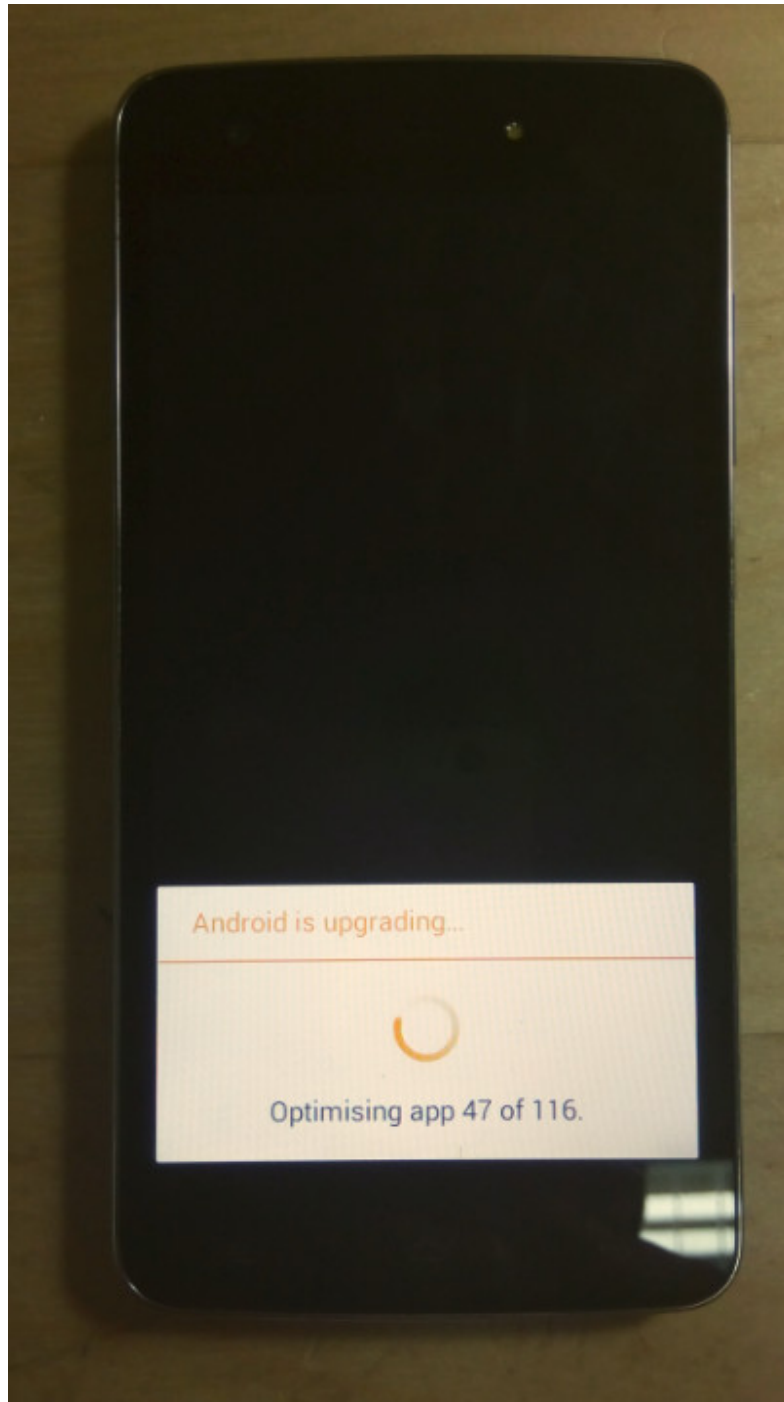

7. The phone will reboot and the update procedure will start automatically.

8. After the update process is finished, the phone will reboot itself.

9. ***“Android is upgrading”*** will be shown on the phone’s screen.

The update file downloaded in the internal storage / microSD card will be automatically deleted once the update process is finished.
