

The Update Procedure through OTA – Allview X2 Soul Xtreme / Android 5.1 / 14.07.2016

The software update advantages are:

- ✓ *software stability improvement;*
- ✓ *fixing translation issues;*
- ✓ *fixing minor bugs.*

WARNING! *The phone must be fully charged when initializing the procedure.*

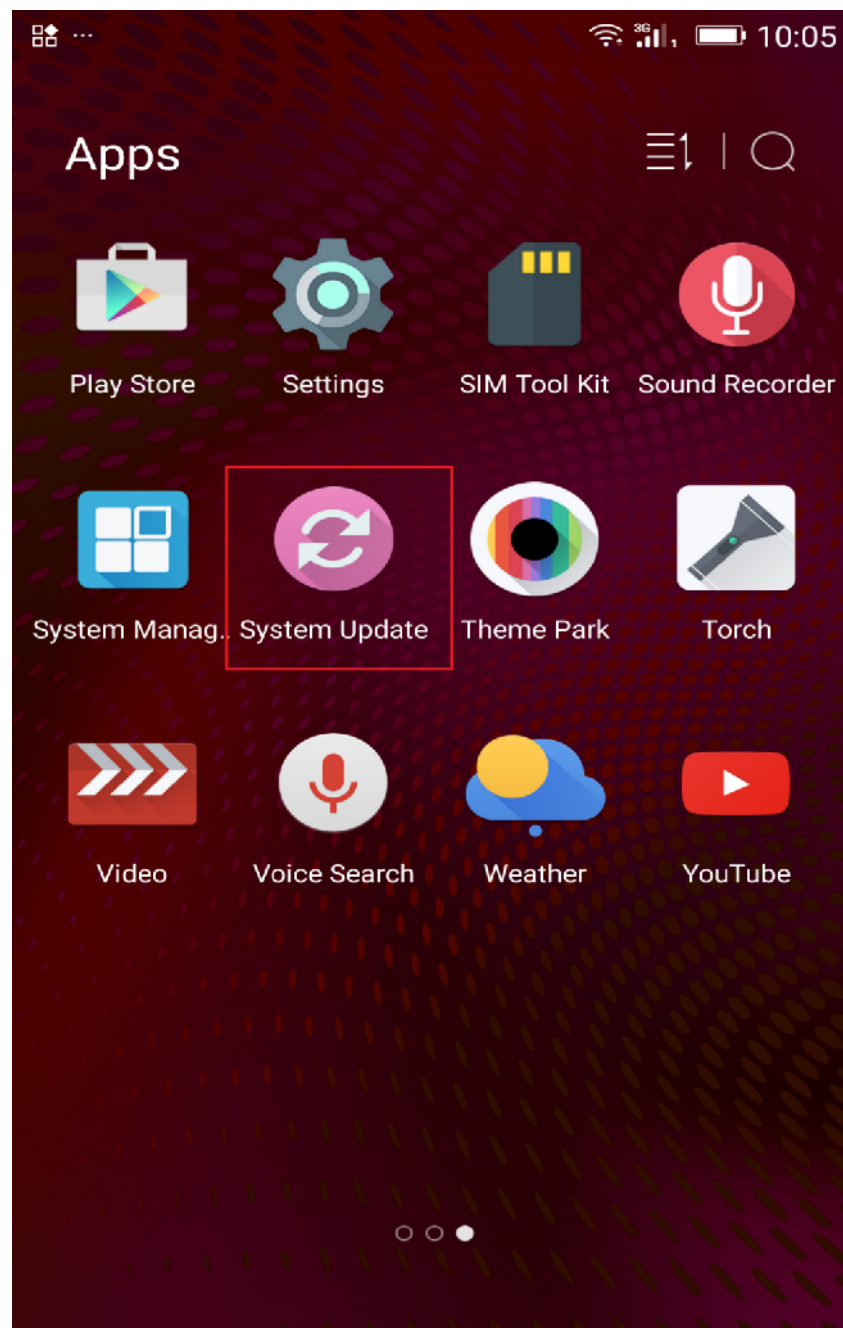

WARNING! *Please do not stop the update operation under any circumstances.*

The software update is an operation done on own responsibility by following the steps below.

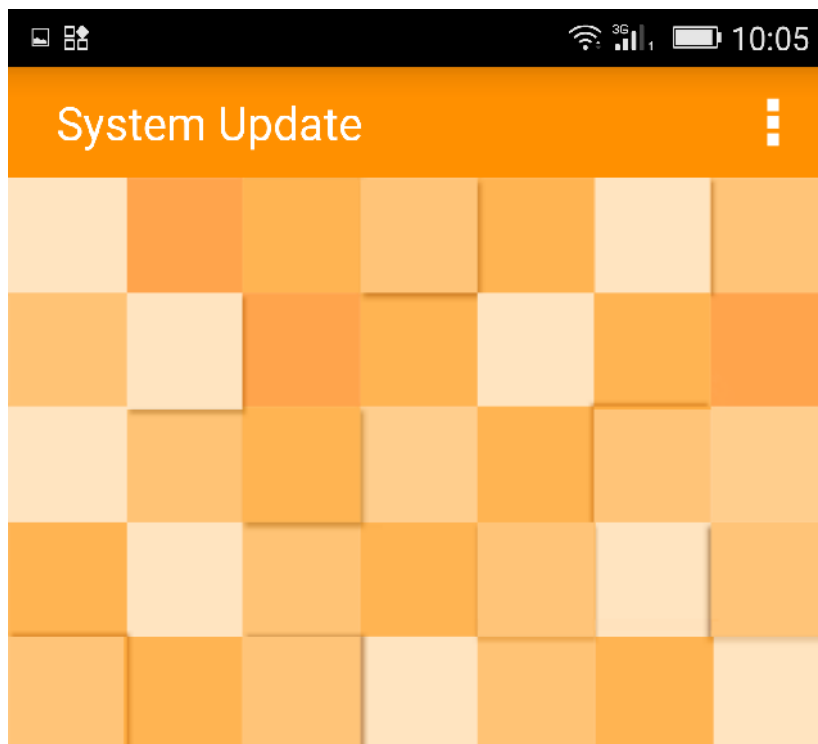

To update the software version of the *Allview X2 Xtreme* smartphone please follow the next steps:

1. Turn on the phone and connect it to a wireless network.
2. Open the "**System update**" app from the app menu:

3. Click the **“Check new version”** option:

Last update time: 10:04

Model: X2_Soul_Xtreme

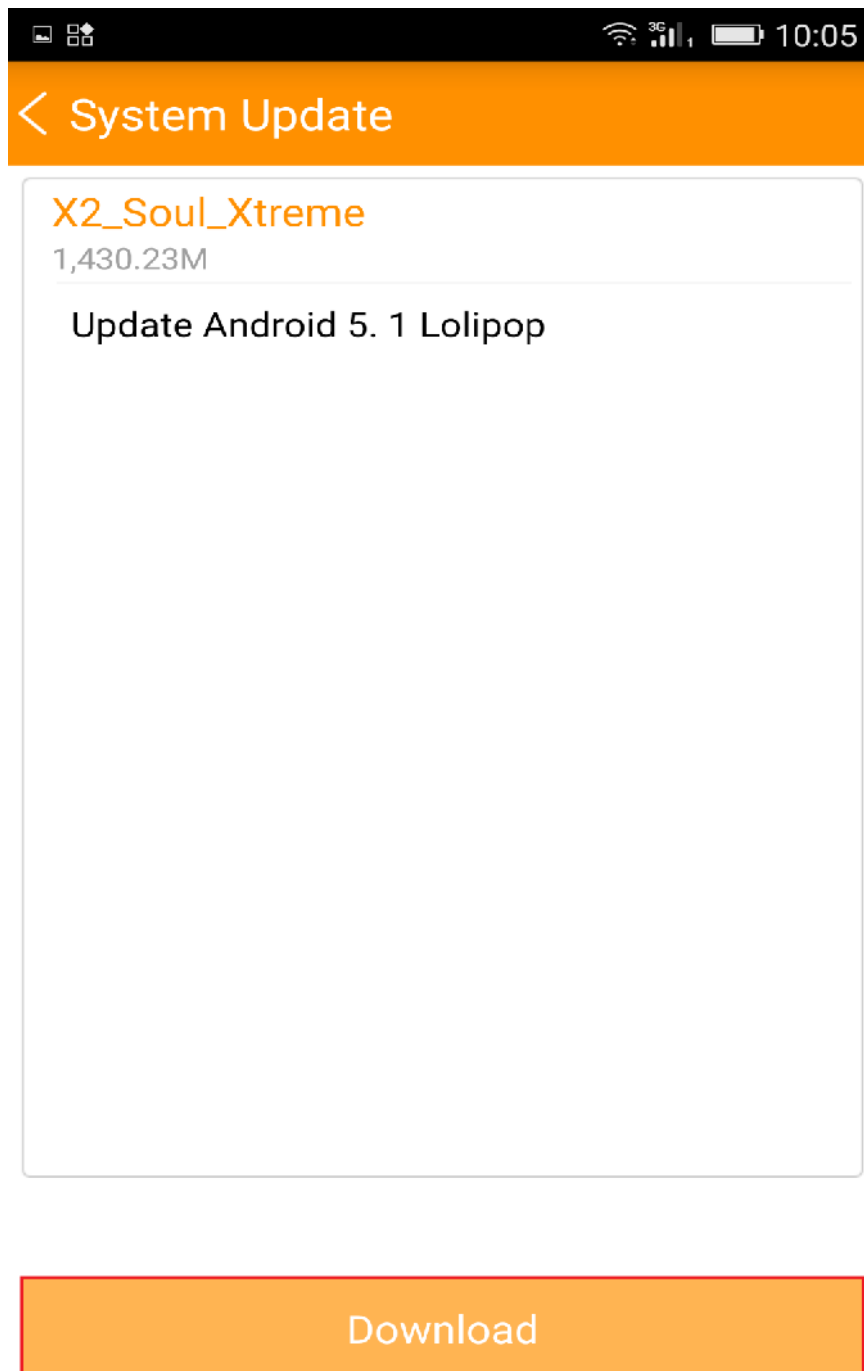

System version: 5.0.16

Release date: 16-05-2016

Check new version

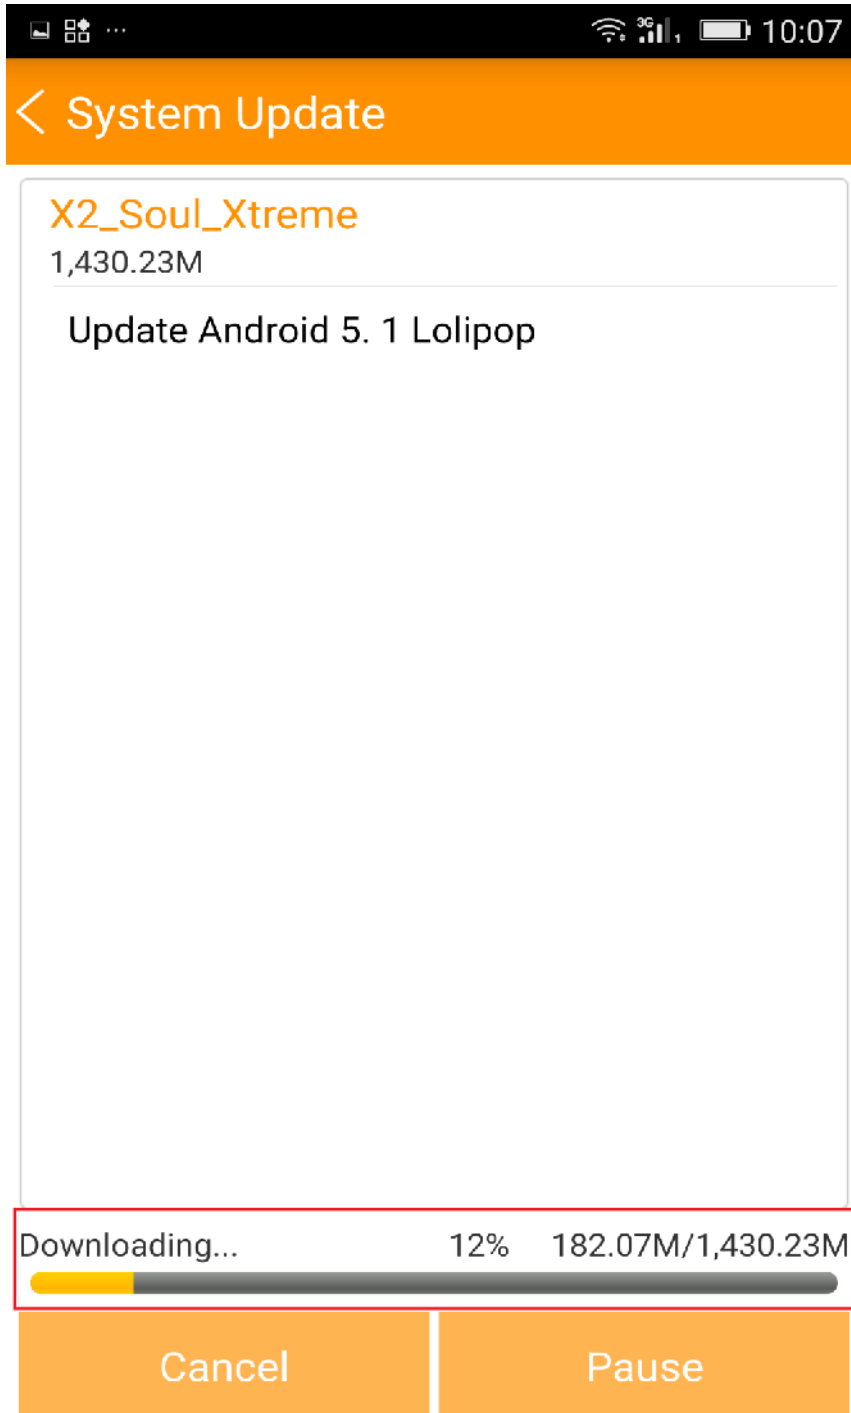

4. The “**System update**” app has detected a new software version (Update to Android 5.1 Lollipop). Click **Download**:

5. Please wait until the new software is downloaded in the internal storage or micro SD card of the phone:

6. After the complete download of the software, please select “**Upgrade**”:

Backup tips

System will restart to upgrade, and this will not affect user data. You are suggested to backup user data to be safer.

Backup

7. The phone will reboot and the update procedure will start automatically.

8. Once the update process is over, the phone will reboot itself.

9. **“Android is upgrading”** will be shown on the phone’s screen.

The update file downloaded on the internal storage / microSD card will be automatically deleted once the update process is finished.

We recommend **Factory Reset** after the software update in order to prevent any errors.

WARNING! All personal info and apps will be deleted from your device after Factory Reset.
