

The update procedure through OTA – Allview AX501Q / Android 5.1 / 26.08.2016

The software update advantages are:

- ✓ *software stability improvement;*
- ✓ *fixing some minor bugs.*

ATTENTION! *The phone must be fully charged when initializing the procedure.*

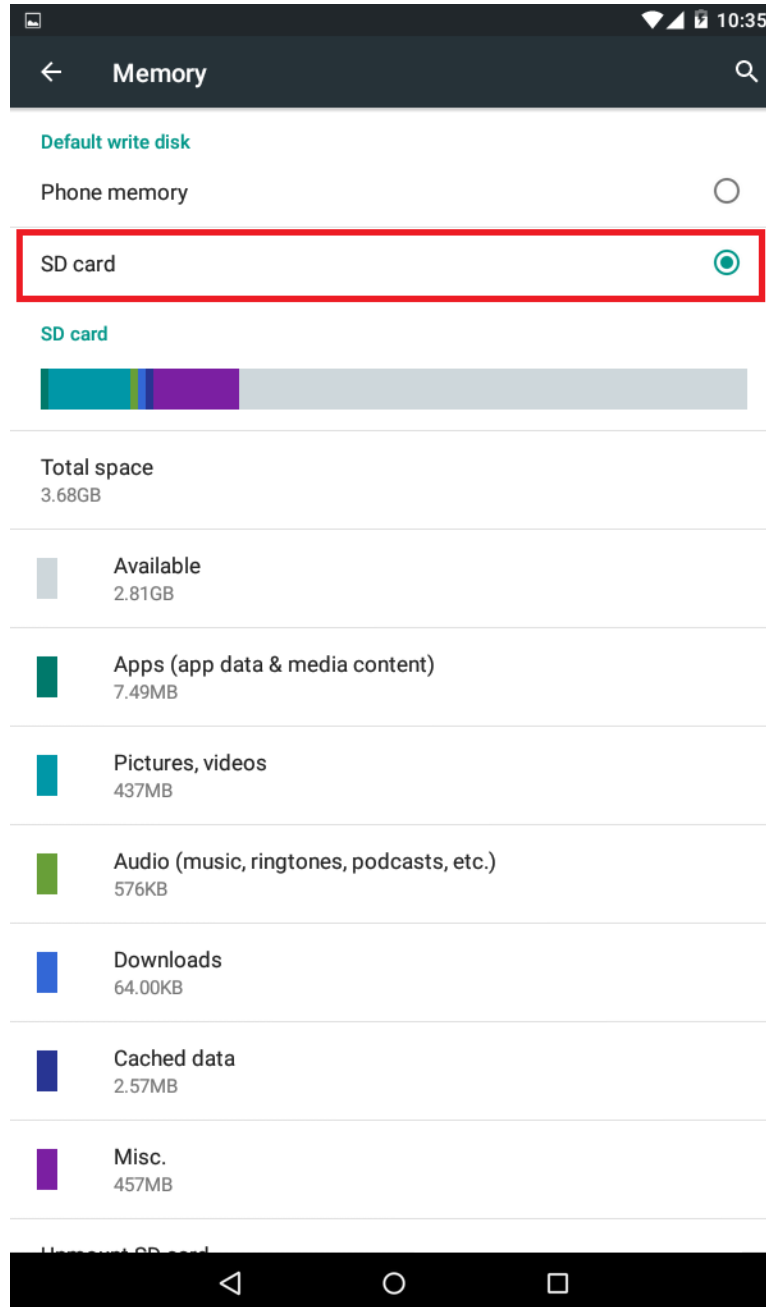

ATTENTION! *Please do not stop the update operation under any circumstances.
The software update is an operation done on own responsibility by following the steps below.*

To update the software version of the *Allview AX501Q* smartphone please follow the next steps:

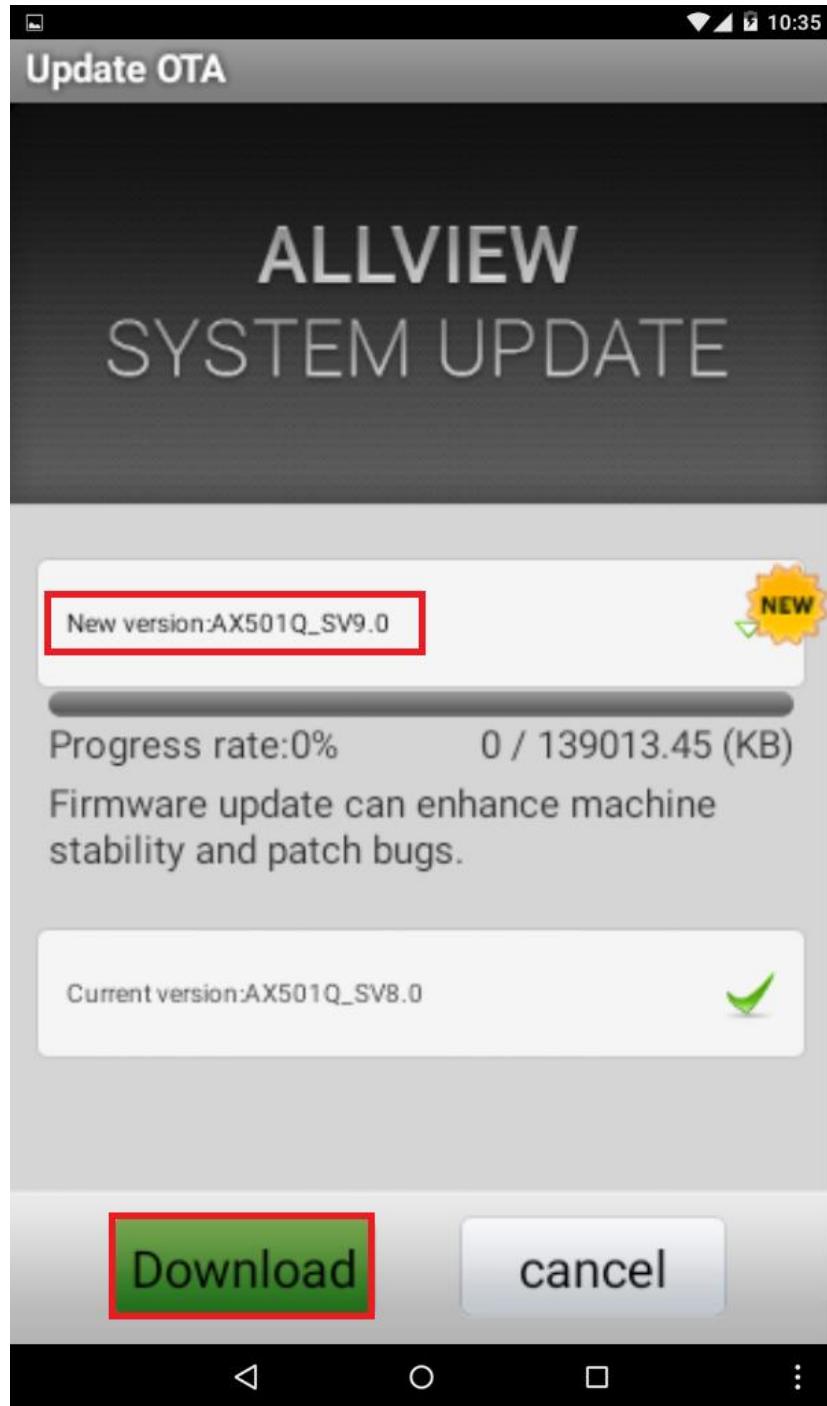

1. Turn on the phone and connect it to a wireless network.
2. Make sure you have the SD Card is inserted in the device and selected as the default location writing.

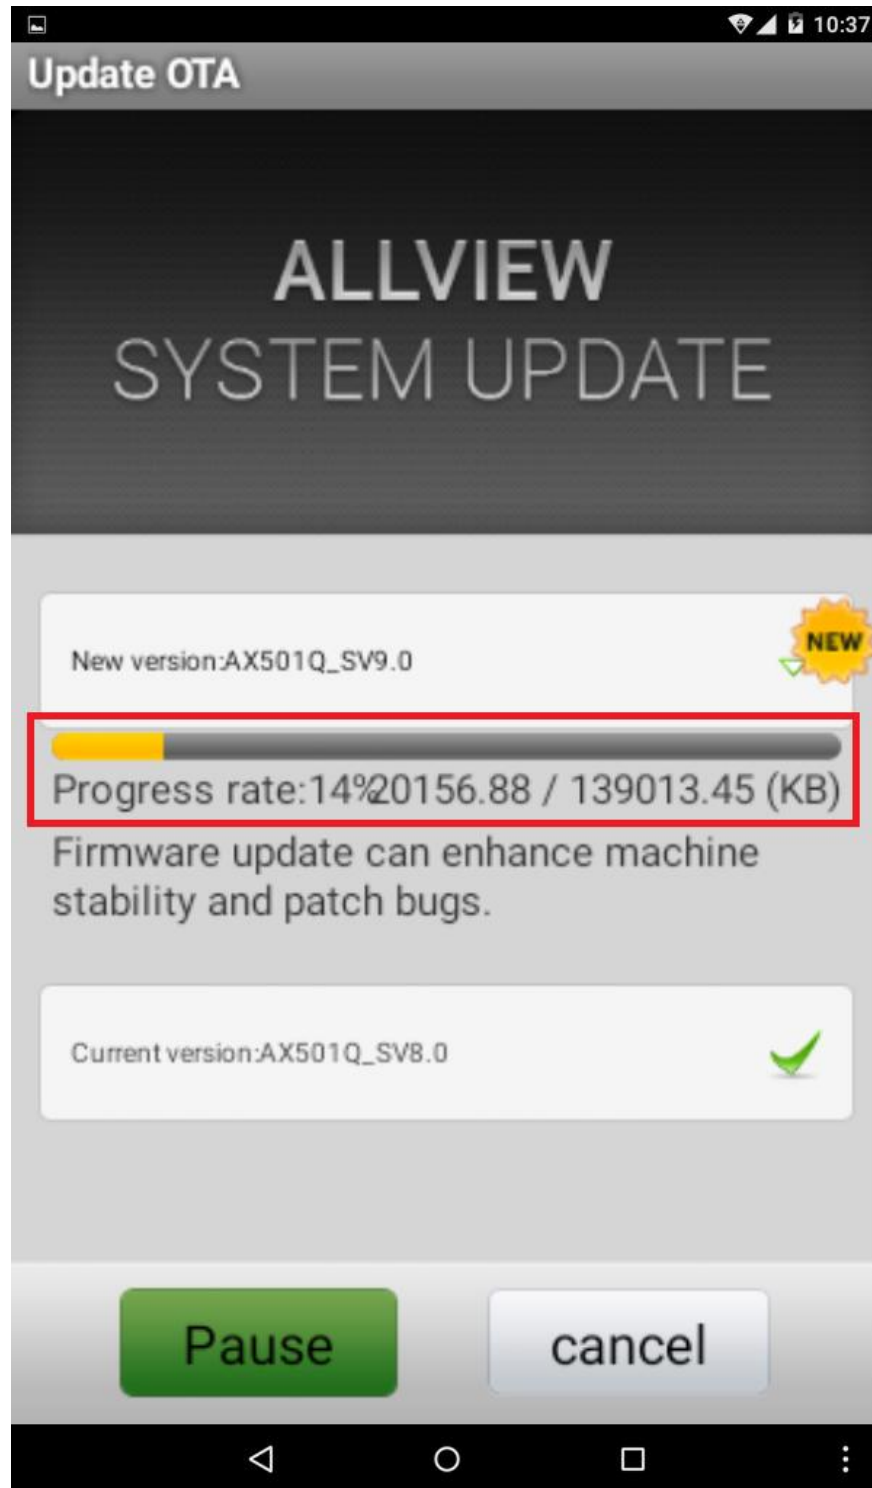

3. Open the **"System updates"** app from the apps menu:

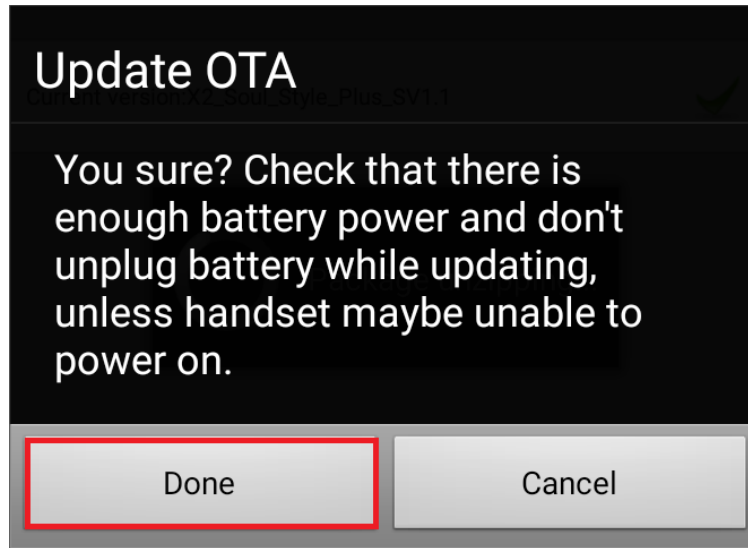

4. In “**System Update**” app, check the new software version (**AX501Q_SV9.0**). Tick on the **Download** option:

5. Please wait for the full software download in the phone's storage (micro SD card).

6. After the full software download, a message will be displayed on the phone's screen that will inform you about this update:

7. Select **Done**. The phone will reboot and the update procedure will start automatically.

8. After finishing the update process, the phone will reboot itself.

9. ***“Android is upgrading”*** will be displayed on the phone’s screen.

The update file downloaded in the phone's storage (micro SD card) will be automatically deleted after the update process is finished.
