

The update procedure through OTA – Allview P9 Energy Lite / Android 6.0 / 31.08.2017

The software update advantages are:

- ✓ *software stability improvement;*
- ✓ *fixing some minor bugs.*

ATTENTION! *The phone must be fully charged when initializing the procedure.*

ATTENTION! *Please do not stop the update operation under any circumstance.*

The software update is an operation made on own responsibility by following the steps below.

To update the software version of the *Allview P9 Energy Lite* smartphone please follow the next steps:

1. Turn on the phone and connect it to a wireless network.
2. Open the "**System Update**" app from the apps menu:

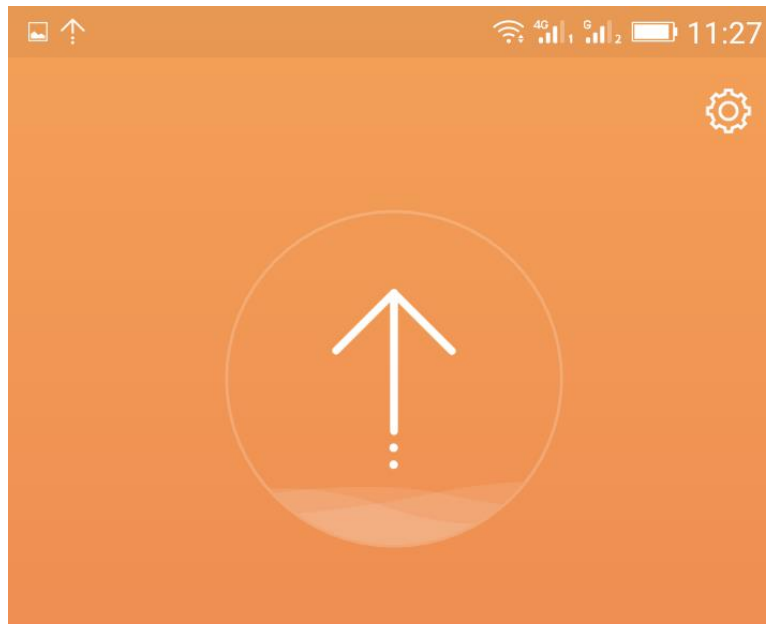

3. Click on **“Check version”** to search for new software version.

4. The **“System Update”** app has detected a new software version (**P9_Energy_Lite_0101_V5268**). Click on **Update immediately**:

Detected New Version: V5268

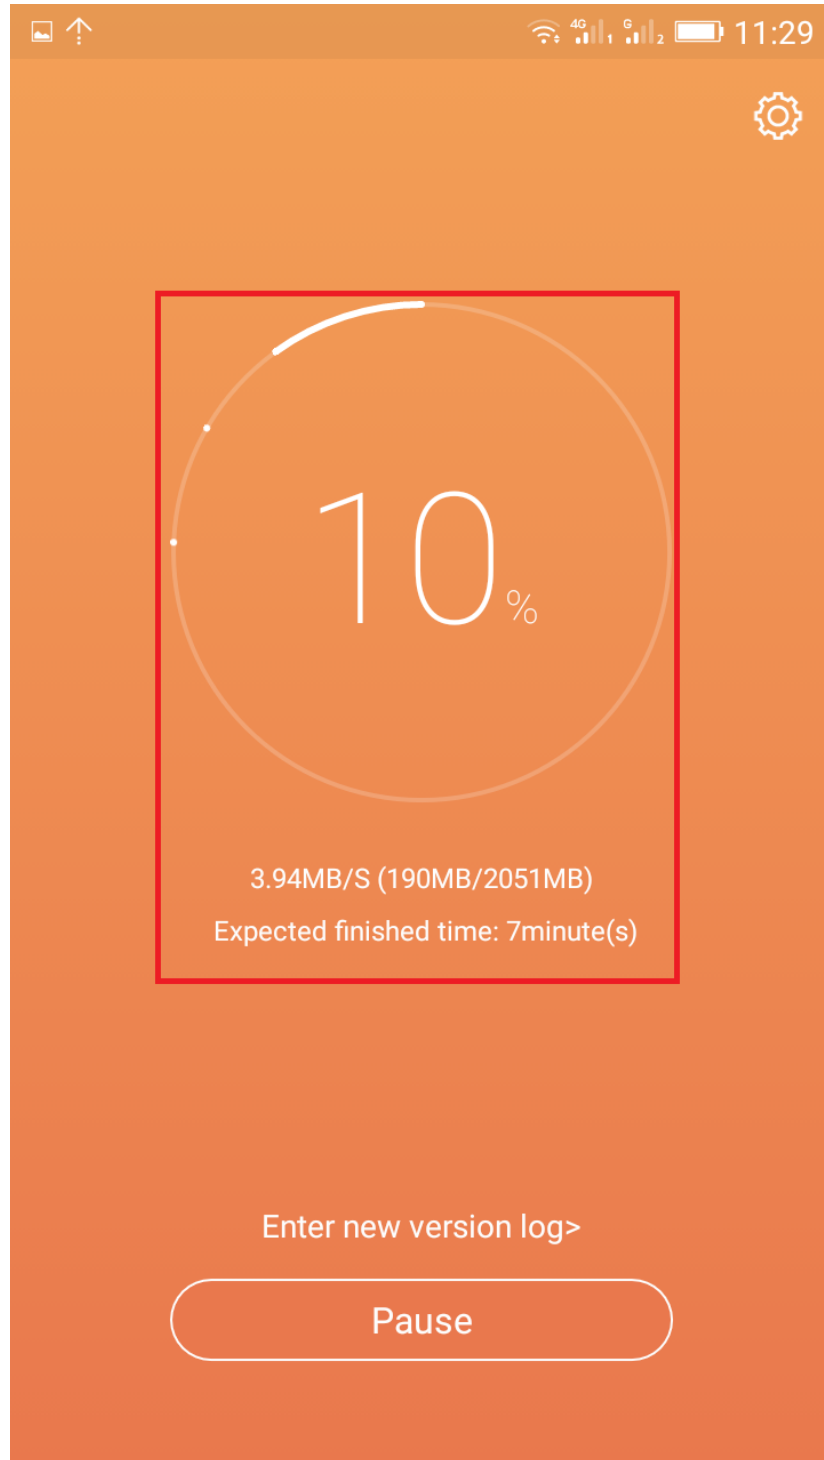

2051MB

[Enter into the new version log>](#)

[Update immediately](#)

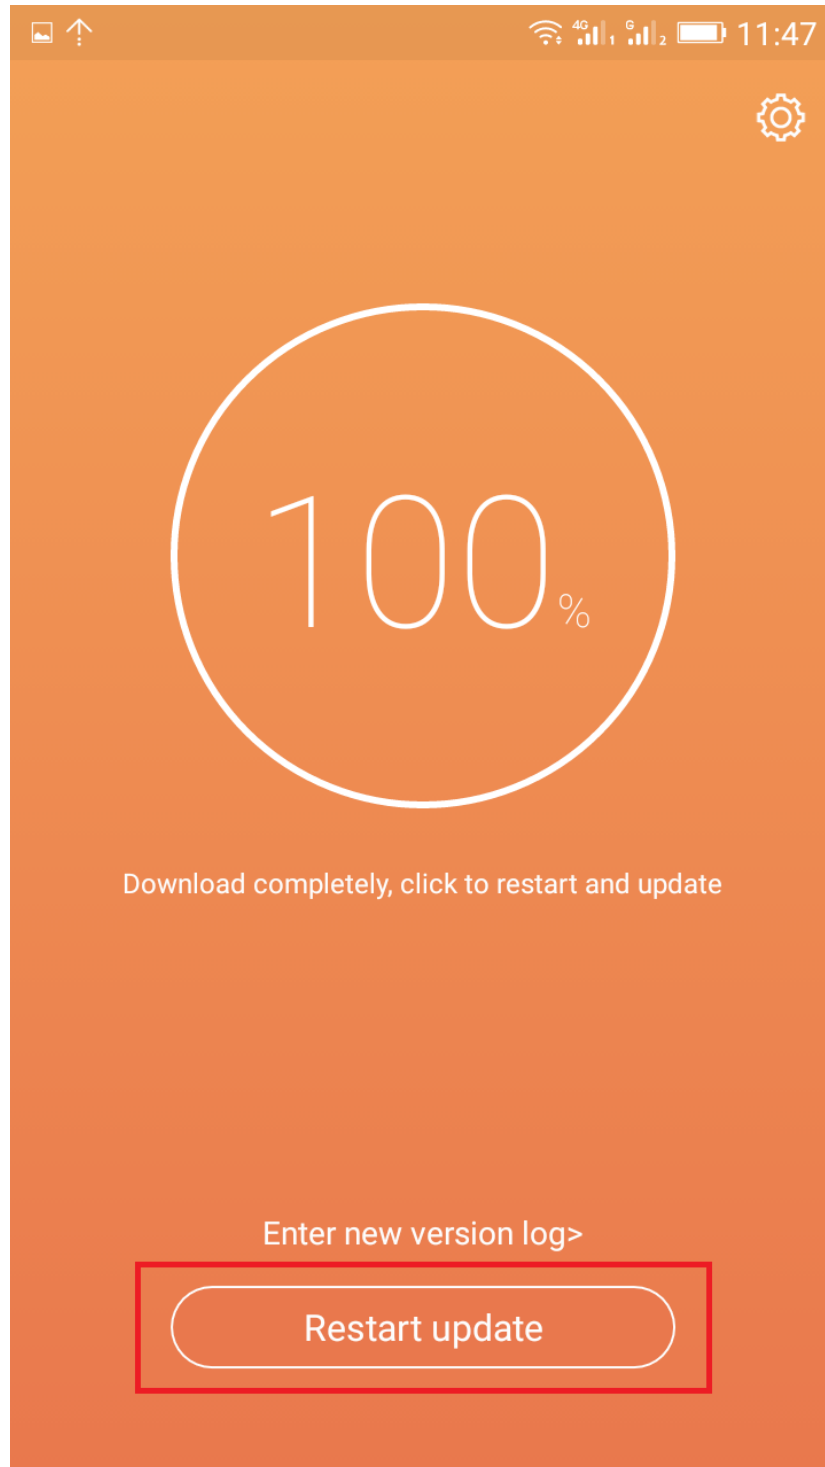

5. Please wait for the full software download in the phone's internal storage/micro SD card.

6. After full software download, select ***Restart update***:

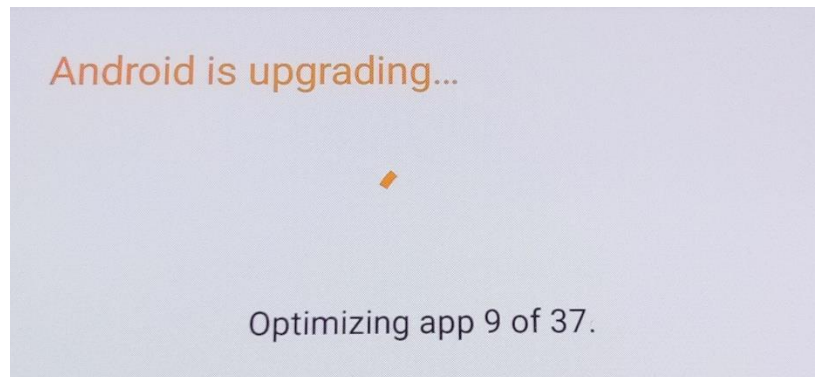

7. The phone will reboot and the update procedure will automatically start.

8. After finishing the update process, the phone will reboot itself.

9. **“Android is upgrading”** will be displayed on the phone’s screen.

The update file downloaded in the phone's internal storage/micro SD card will be automatically deleted after the termination of the update process.
