

## ***The Download/Upload - WiFi speed improvement procedure for X1 Soul***

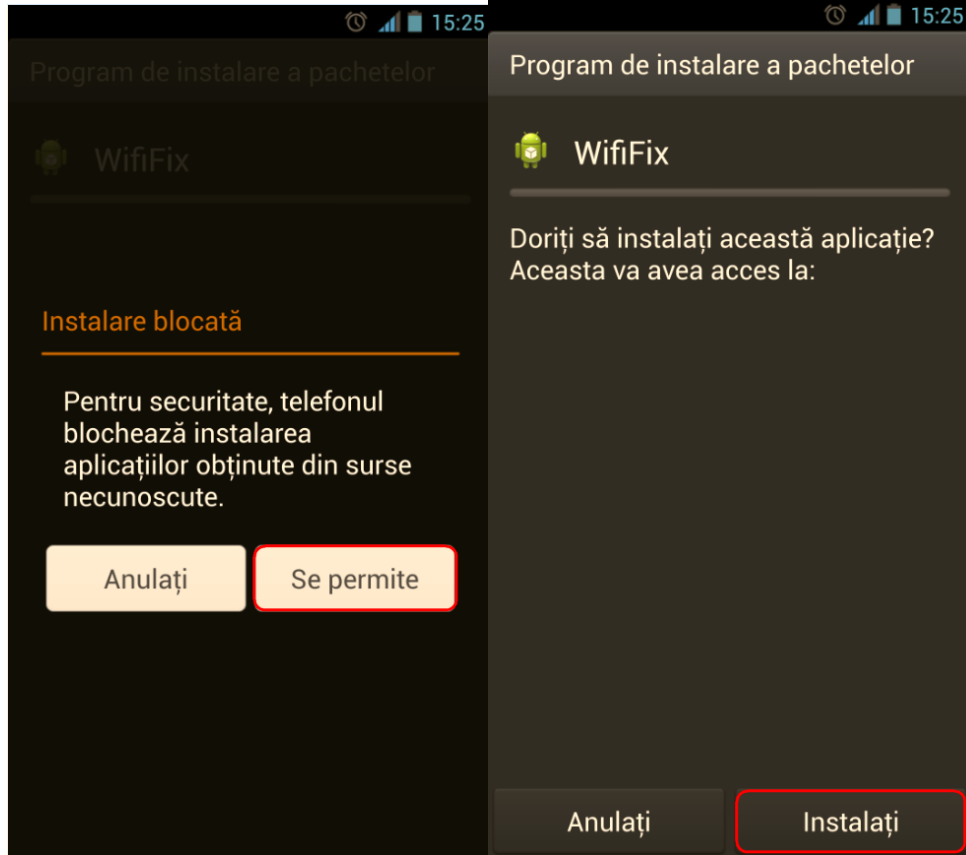

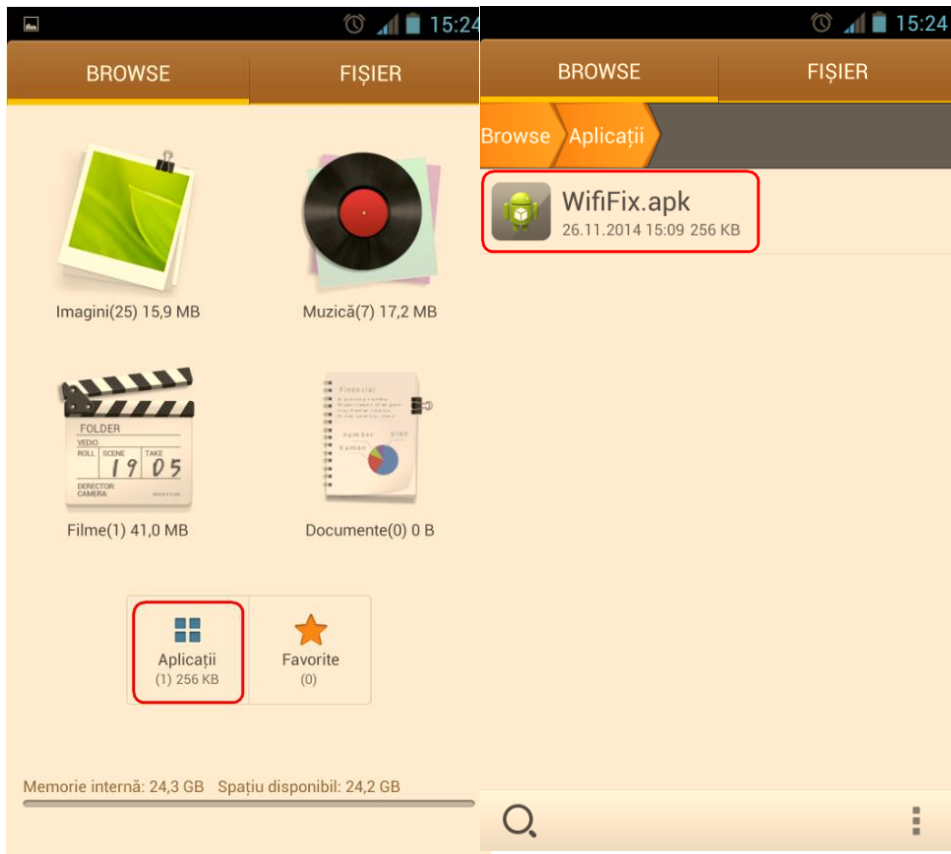

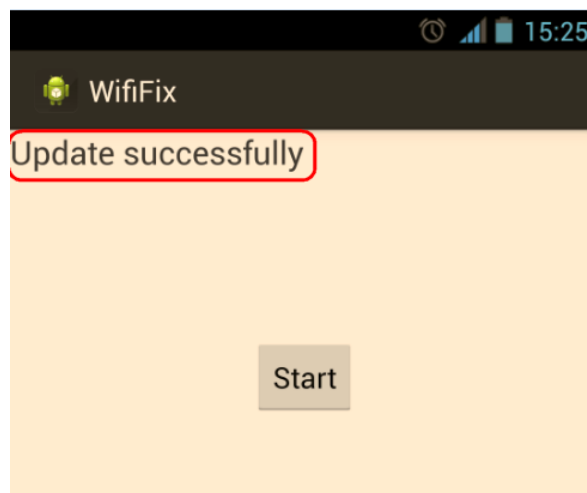

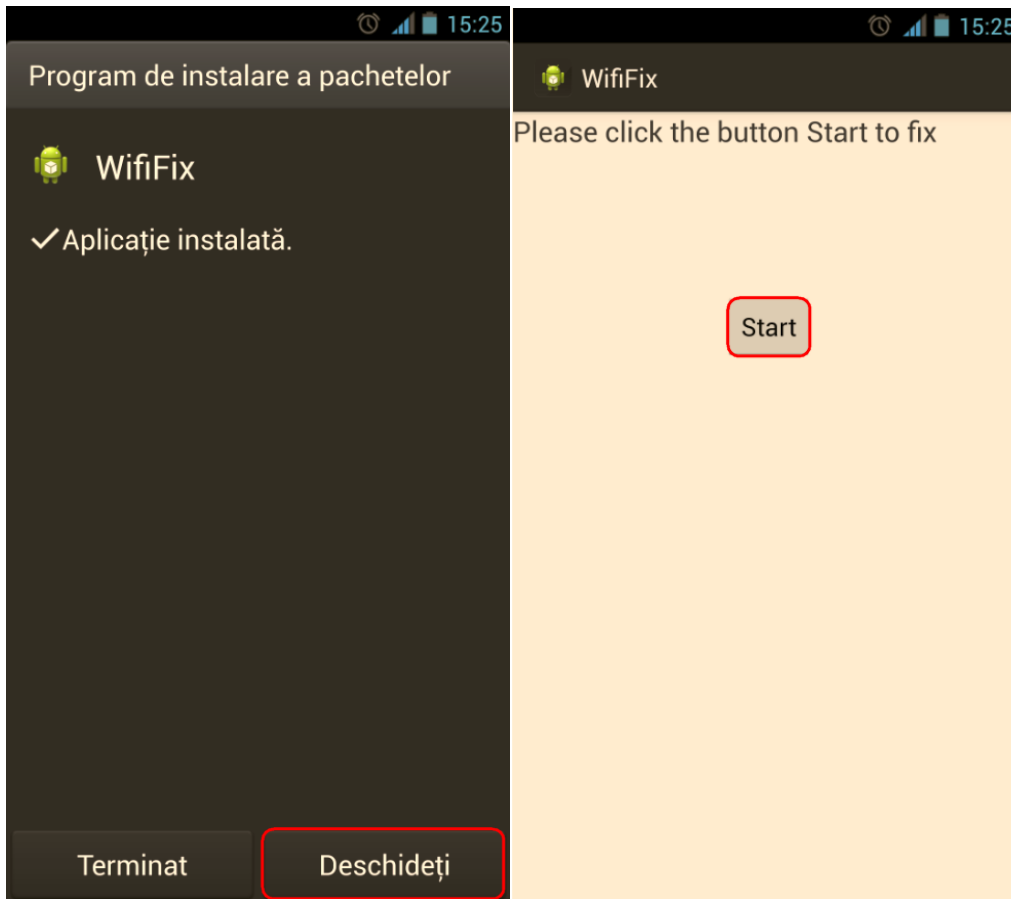

To improve the **Download/Upload - WiFi** speed of the **Allview X1 Soul** smartphone, it is necessary to follow the steps below:

1. Download the **"WifiFix.apk"** app on a desktop PC or a laptop.
2. Copy the **"WifiFix.apk"** app in the internal storage.
3. Deactivate the WiFi option from the phone:

4. Install the **"WifiFix.apk"** app in your phone as it follows: **Application Menu-> File Explorer-> Applications-> Tick WifiFix.apk-> Allow-> Install -> Open -> Press the Start option -> The update was successfully installed -> Reboot the phone.**

**ATTENTION!!!** In case that you will reset the phone to factory settings, it is necessary to reinstall the **WifiFix.apk** app.
