

## **The Update Procedure through OTA - X2 Soul v1/09.12.2014**

**The advantages are:**

- the update of the operating system from *Android 4.2.2 Jelly Bean* to *Android 4.4.2 KitKat*;
- a newer interface for the fast settings menu;
- a newer interface for the Settings app;
- an improved widget for RAM memory optimization;
- improved processing speed;
- fixing some minor bugs;
- an app for a more efficient resources management (memory cleaning, power optimizer, traffic monitoring, managing apps).

**ATTENTION!** The phone must be fully charged when initializing the procedure.

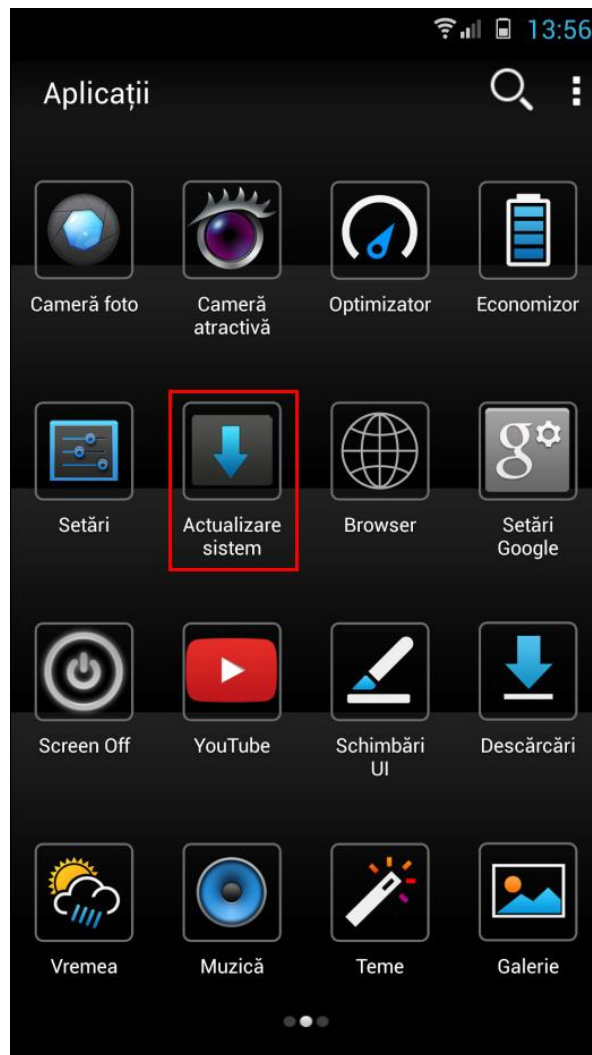

**ATTENTION!** Please do not stop under any circumstance the update operation.

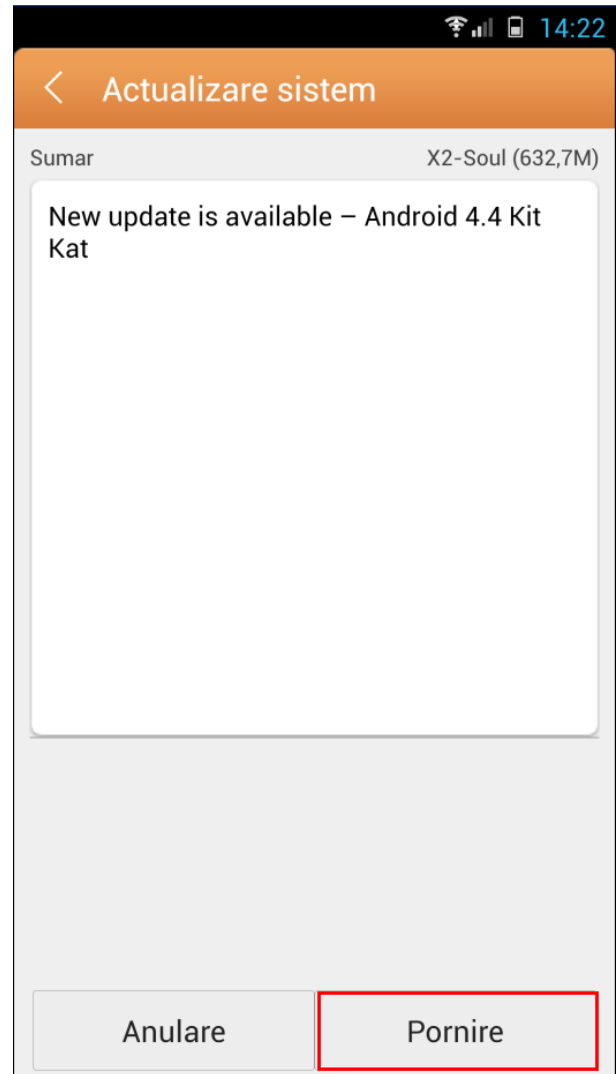

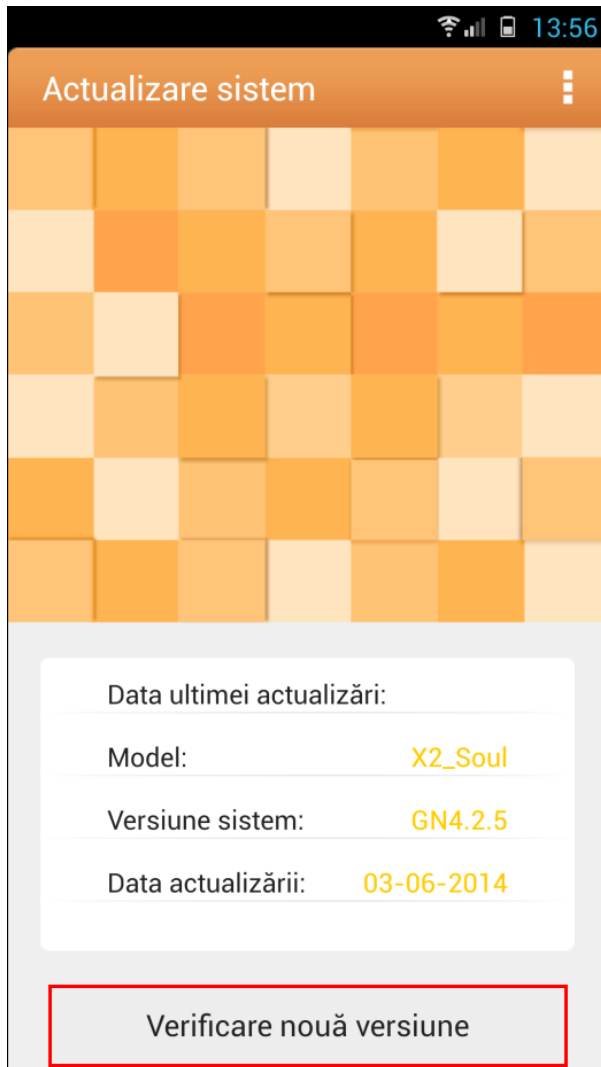

The software update is an operation which is realised on own responsibility by following the steps below.

**To update the software version of the Allview X2 Soul smartphone it is necessary to follow the next steps:**

1. Turn on the phone and connect it to a wireless network.
2. Open the **"System updates"** app from the app menu:

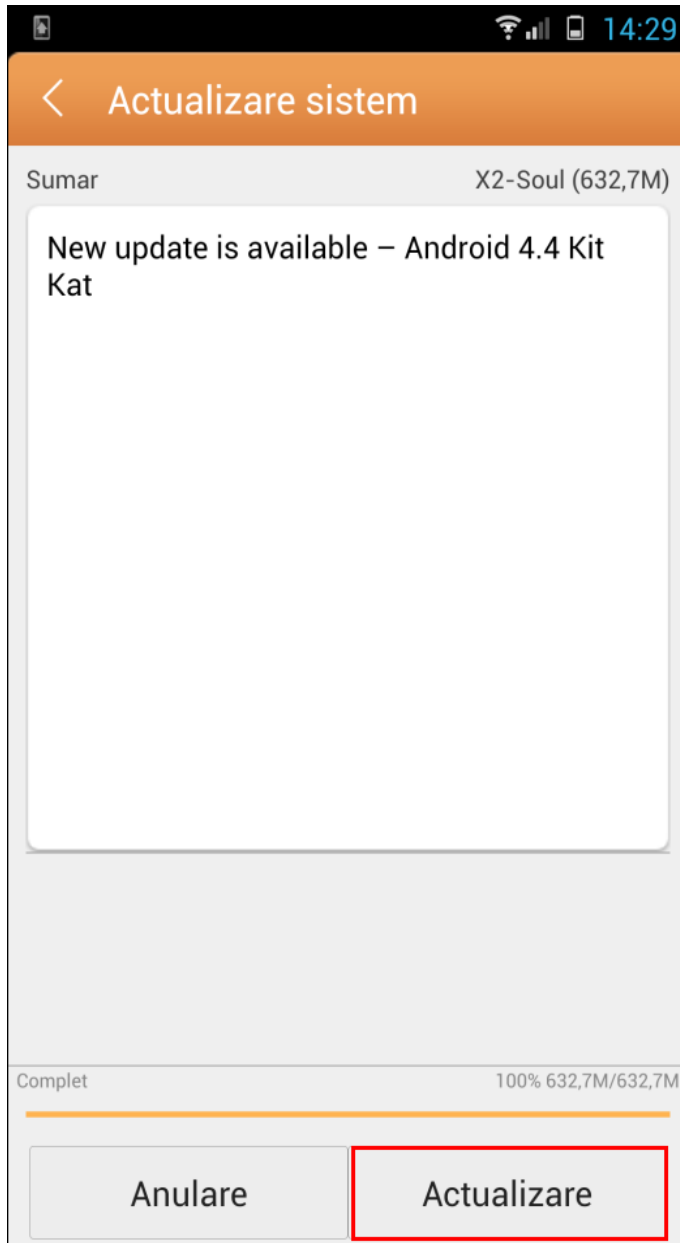

3. Tick the option: **Check new version -> Start:**

4. Please wait until the new software is downloaded in the phone:

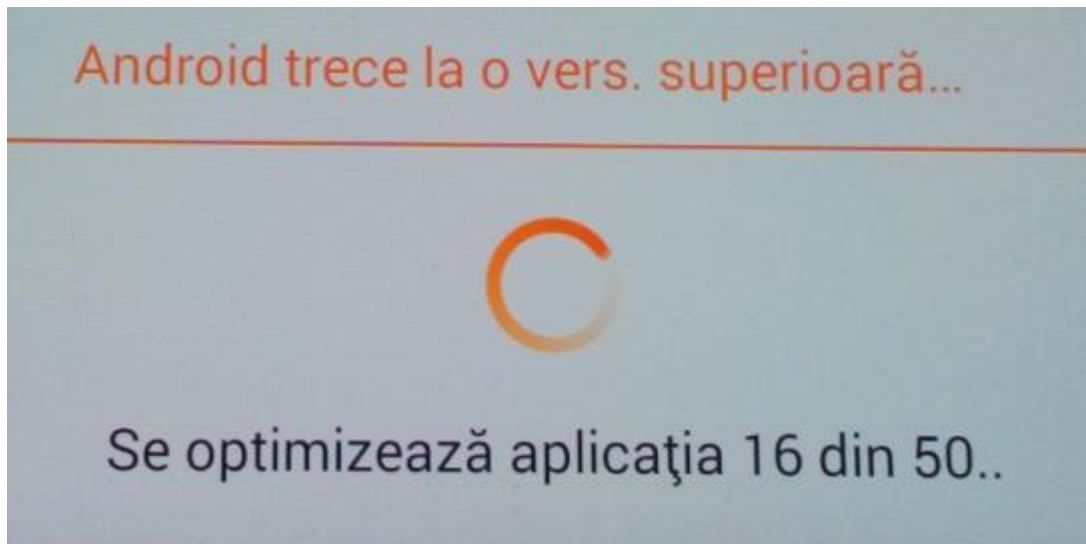

5. After the full software download, a message will be displayed on the phone's screen that will inform you about this update:

6. Select **Update**. The phone will reboot and the update procedure will start automatically .

7. After finishing the update process, the phone will reboot itself.

8. On the phone's screen this message will be displayed: ***“Android is upgrading”***.

The update file downloaded in the internal storage will be deleted automatically after the termination of the update process.

We recommend factory Reset after the update, to avoid some errors.

**ATTENTION!** The phone's factory reset will completely delete all personal information and the apps installed in the phone.
